## Connect made me happy because...

"I can clearly see how my students are doing. No guesswork involved."

#### I chose Connect because...

"I wanted to enhance my students' learning experience, and reinforce the content with new applications."

### My experience using Connect was...

"in a word...easy! There is always a learning curve, but it is very easy to adapt to and easy to administer. Overall, a truly positive experience."

## Connect helped me improve my course by...

"engaging the students from the first week of class, and helping them become familiar with the content in a way that can be tailored to their needs."
