# GLENCOE MATH

## Your exciting new middle school math program built around the Common Core State Standards

A brand new day is dawning for middle school math teachers and students. It's your day, so find your way to get students excited about math class. It's a day when students are found outside of school watching math videos and playing math games. It's a day where teachers can find resources, customize presentations, create leveled homework sheets, and prepare a chapter test easily in one convenient online location. It's a day powered by *Glencoe Math*.

*Glencoe Math* is a unique, new middle school program that presents math in real and relevant ways to students and provides a robust toolkit to teachers. It's just what you've been looking for to engage students and energize teachers.

### Uniquely Interactive

- iPad™ compatible lessons, games, apps, videos, and virtual manipulatives connect with today's digital natives.
- Students work problems, tear out pages, take notes, and complete homework sheets right in the book.

### Highly Customizable

- ALL planning and assessment resources are in one online portal.
- Exclusive access to ConnectED offers customizable resources, such as lesson presentations and editable worksheets.

### Built to the new Common Core State Standards

- Lessons, assessments, and activities ease student and teacher transition to the new standards.
- Point-of-use common core curriculum simplifies planning.

Teach **Your** way... in **Their** world.

With *Glencoe Math*, you engage students by teaching math in real, relevant ways. And robust resources let you incorporate the latest
