Sustainability Reporting and Disclosures

2026 Release

Barbara M. Porco, Timothy P. Hedley, Steven M. Mintz

Available for Fall 2026 Adoptions!

Sustainability Reporting and Disclosures introduces students to sustainability reporting and disclosures pertaining to environmental, social, and governance dimensions and issues encountered by accounting, finance, and business professionals. With dedicated chapters to the most widely accepted frameworks and standards, it is designed to equip students with the critical thinking and problem-solving skills necessary for understanding and evaluating sustainability reporting and disclosures and making responsible decisions consistent with environmental, social and governance issues.

Table of Contents

1. Sustainability Reporting and Disclosures: An Introduction to the Landscape
2. Externalities, Internalization and Accounting for Sustainability
3. Stakeholder Focus: UN Sustainable Development Goals (SDGs)
4. Stakeholder Focus: GRI Standards
5. Investor Focus: SASB Standards
6. Environmental Reporting and GHG Accounting
7. International Considerations
8. Transition Management for Sustainability Reporting
