Our Commitment to Accessibility

Creating accessible products is a priority for McGraw-Hill Education. We have put in place processes to make accessibility and meeting the WCAG AA guidelines part of our day-to-day development efforts and product roadmaps. We measure and track our progress to ensure we continually make improvements to address the evolving industry standards and to meet our learners' accessibility needs. VPATS are available upon request. Our audits and VPATS are completed by a third party.

Testing Process

We are committed to testing with users with different ranges of abilities and disabilities to ensure the usability and accessibility of our products.

A series of tests are conducted to ensure our compliance with the WCAG AA guidelines. Baseline assessments are completed, using a third-party vendor, to uncover gaps and inform a remediation roadmap. As new features are developed, an accessibility-specific success criterion is defined and all new work is tested to ensure it complies with the criteria prior to release. As these products continue to grow and the accessible feature set expands, semi-regular assessments will be completed by an external vendor to ensure continued compliance with the WCAG guidelines.

Connect Platform

This report reflects the accessibility level of the content available within our Connect platform as it relates to specific title.

Content

Alternative Text Files: We provide electronic files for use by students with disabilities. In order to send a file, we require a written request from the disability services center of your school. Requests can be submitted via Access Text Network at www.accesstext.org or submitted directly to McGraw-Hill Education. To submit to McGraw-Hill, please email us at mhe-permissions@mheducation.com or fax the request to 646-766-2019.

Many of our titles have alt descriptions of images available in a separate document provided to the DSS office. To request this file, please contact us at accessibility@mheducation.com.

McGraw-Hill Education is actively working on developing more accessible assessment experiences. While some of our interactive assessment questions are not yet accessible to users of assistive technology, we continue to make improvements with each platform release.

Content Feature	Definitions	Status & Alternatives
eBook is operable without a mouse (keyboard navigable) and can be accessed using alternative output devices.	<i>Can the user navigate through the eBook and any link embedded using keyboard navigation and/or assistive technology?</i>	<p>The ReadAnywhere App has undergone multiple audits covering the major features resulting in both ReadAnywhere iOS and Android apps having a WCAG 2.0 AA VPAT certificate. Completed in 2017 and verified in 2018, the VPAT certifies both the reading experience and the SmartBook assignment as WCAG AA compliant. Audits are planned for 2022 to ensure continual improvement and compliance with WCAG standards. SmartBook 2.0 provides a student experience that includes color contrast, descriptions for images, keyboard navigation, and screen reader support. Work is ongoing to improve the user experience for all users. A VPAT for the WCAG 2.0 AA standards is available upon request as well as an updated Accessibility Conformance Report reflecting recent updates. SmartBook 2.0 will have a forthcoming independent audit to the WCAG 2.1 AA standards & a new VPAT in early 2022.</p> <p>The McGraw Hill eBook was built with accessibility in mind. An independent audit resulted in zero “does not supports” for WCAG criteria for the desktop version as well as the app versions (iOS & Android). All versions now support multimedia content interactions such as closed captioning for embedded videos and appropriate descriptions for audio, video & captions. Recent upgrades ensure that users can maintain logical & consistent focus order in menu interactions; that the highlight tool is color-compliant; and that users will not encounter any keyboard traps. Additional remediation will continue in 2022.</p>

eBook images have alternative descriptions/alternative text	<i>Are the alt descriptions embedded in the eBook? Can a screen reader access the images?</i>	Alt descriptions are embedded within the eBook. Students using some forms of assistive technology may find it difficult to navigate to some of the content, due to the constraints of the technologies available. A file containing the alt descriptions can be supplied upon request. To request, please contact us at accessibility@mheducation.com
Videos are closed captioned and/or transcripts are available	<i>Are videos and the transcripts able to be delivered outside of Connect and provided to DSS offices?</i>	Videos contain closed captioning, but transcripts are not currently available. Efforts will be made to offer both in future editions.
Assessments can be accessed using alternative output devices (screen reader)	<i>Are assessments keyboard navigable? Do images have alt descriptions? Can they be accessed within the platform using assistive technology?</i>	<p>Brief exercises, Exercises, Problem algo and Problem static: Some of the questions will be accessible to screen reader users. In order to provide the best user experience for all students, we recommend instructors utilize the accessibility filter when building their course from content through the Connect question picker.</p> <p>Excel data files are Excel templates or data linked to a problem that students can use if they want to – not required – when solving the problem.</p> <p>General Ledger</p> <p>Color contrast and keyboard navigation are supported by this tool which is used to build our end of chapter content. Beginning with the 2022 copyright year, a select number of titles using IRT have been updated to support screen reader compatibility. For all titles published after the 2020 copyright year, accessibility tagging is provided in the question banks to help easily identify the level of accessibility support for each assignable content item.</p> <p>The four main analytics assessment types for Accounting (Data Visualizations, Tableau Dashboard Activities, Applying Tableau, Excel Analytics) are not screen-reader compatible currently. The questions contain images, tables or embedded Tableau dashboards that will not function properly with screen-reader programs. Additionally, the Tableau Dashboard Activities are not fully keyboard navigable, as fully analyzing the embedded dashboards requires the use of a mouse.</p>
Application Based Activities ABA's)	<i>Are assessments keyboard navigable? Do images have alt descriptions? Can they be accessed within the platform using assistive technology?</i>	Application-Based Activities are highly interactive, automatically graded, online exercises that provide students a safe space to apply their knowledge and problem-solving skills to real world scenarios. These activities are integrated into Connect. An in
Adaptive Learning Assignment	<i>Are assessments keyboard navigable? Do</i>	

	<i>images have alt descriptions? Can they be accessed within the platform using assistive technology?</i>	The Adaptive Learning Assignment is an assignment type within our latest Connect Master products. This assignment provides a learning experience that adapts to the unique needs of each learner through ongoing formative assessment, feedback, and learning resources. Built from the ground up with accessibility in mind, the Adaptive Learning Assignment includes appropriate color contrast, keyboard navigation, and screen reader usability to support students with accessibility needs. An independent audit to the WCAG 2.1 AA standards has been completed resulting in zero "does not supports." The corresponding VPAT and Accessibility Conformance Report are available upon request.
Writing Assignment		Writing assignment is not included with this text.
PowerPoints can be accessed using alternative output devices (screen reader)	<i>Images contain alt descriptions and there is a logical reading order.</i>	Two sets of PowerPoints are available for this title. One is currently accessible.
Additional Resources		Integrated Excel is a Connect question type using Microsoft's Excel Online platform, which allows for students to complete questions in a real Excel environment. The Integrated Excel tool supports both keyboard navigability and screen reader compatibility, with individual questions being built with screen reader users in mind and utilizing Microsoft's own accessibility best practices for Excel.
Additional Comments		ABAs in development now and avail for F2022; Adaptive Learning Assignment has been added across disciplines covering "online learning" - not course specific

We are committed to working with our education partners as we progress in our accessibility efforts. In the event that alternative content formats are required, we will evaluate the options and, when possible, provide as needed.
