

A Look at the Enhanced and More Accessible ALEKS eBooks for Math

Students can access the eBook by navigating to the hamburger menu on the top left hand side and selecting ebook.

Navigate to the Table of Contents on the top left to access the specific chapter and section you are looking to understand. To quickly find a topic that was talked about in class, click on Search and type in a search term.

Clicking on the highlighter will allow you to choose from four different colors to highlight certain topics. The eBook will save the highlight system and you can quickly navigate to them by clicking on the left hand navigational menu and clicking on Highlight.

The same feature is available for notes. Select the Notes icon and type in your note. Just as the Highlight feature, these notes will be saved and a time stamp will be visible to indicate when they were taken. You also have the ability to save Notes as a PDF.

Students also have the ability to select the lecture video in order to follow along with the book.

Click on the Read Aloud feature to have the page read to you. You can manipulate the volume and speed of the reader.

A Look at the Enhanced and More Accessible Ebooks for Math (continued)

If you are working on a specific assignment and need help right away, access the eBook by clicking on the eBook icon on the right side of the page.
