

Creating a Connect Course

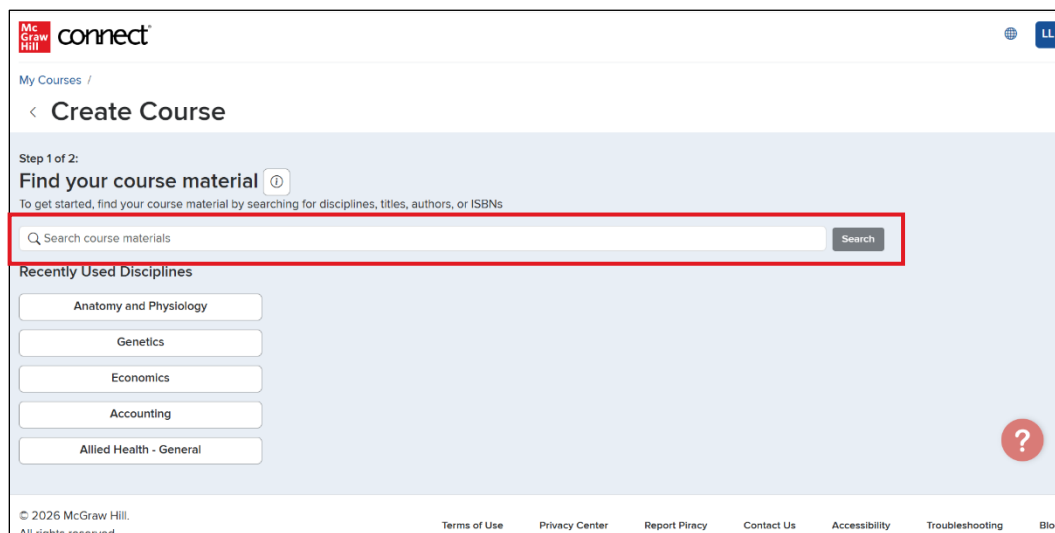

Step 1: Sign In and Start a New Course

Once you are logged into your Connect home page click **Create Course** in the top-right corner to begin creating a new course.

Step 2: Find Your Textbook

Search for your textbook using the title, author, subject, or ISBN. Select the correct textbook from the search results.

Step 3: Create a Section

Enter your course name and select the appropriate time zone. Use a course name that students can easily identify. Enter a section name, choose your institution, and set the registration dates. These settings determine how and when students can enroll in the course. Review the course information and click **Create Course**. Connect will create your course and section automatically.

Step 2 of 2:
Enter Course Details
Give your course a name, time zone, and registration date and then add your first course section.
All input fields are required unless marked as optional.

Step 5: Access the Section Dashboard

From the **Manage Assignments** page, create and manage course assignments by selecting **Create Assignment**. **Upload a course syllabus**, preview the course using **Student View**, and switch between course sections with **Change Section**. Use the left navigation menu to access the **Student Roster**, **Manage Instructors**, **Course Materials**, **Instructor Resources**, **View Reports**, and **AI Feature Settings**. Select the **Help** icon for additional support.
