

Integrating McGraw Hill Connect New UX (LTIA) with Canvas

Learn how to seamlessly link your McGraw Hill Connect course materials to a Canvas environment. This guide covers the entire process from initial account setup to deploying assignments directly into your course curriculum.

Locating the McGraw Hill LTIA (1.3) Integration in Canvas

Step 1: Navigate to Your Canvas Course

Open your Canvas course.

The screenshot displays the Canvas LMS interface for a course titled "McGraw > Modules". The left sidebar contains navigation links: Account, Dashboard, Courses (selected), Calendar, Inbox, History, Commons, and Help. The main content area shows the "Modules" section with a "No content. Not visible to students" message. A large dashed box with an upward arrow and the text "Drop files here to add to module" or "choose files" is centered. The right sidebar includes a "View as Student" button, "Course Status" (Unpublished), and a list of actions: Import Existing Content, Import from Commons, Choose Home Page, View Course Stream, Course Setup Checklist, New Announcement, Course Analytics, and View Course Notifications. At the bottom, a "Coming Up" section shows "Nothing for the next week" with a "View Calendar" link.

Step 2: Open the Modules Page

Go into **Modules** in the left navigation.

The screenshot shows the McGraw Hill Connect interface. On the left is a dark sidebar with navigation icons and labels: Account, Dashboard, Courses (highlighted), Calendar, Inbox, History, Commons, and Help. The 'Courses' section is expanded, showing a list of course-related items: Home, Syllabus, Announcements, Discussions, **Modules** (highlighted with a red box), Grades, People, Pages, Files, McGraw Hill Integration, Outcomes, Rubrics, Quizzes, BigBlueButton, Collaborations, Item Banks, and Settings. The main content area is titled 'McGraw > Modules'. At the top right of this area is a 'View as Student' button. Below the title bar are buttons for 'Collapse All', 'View Progress', 'Publish All' (with a green checkmark), and '+ Module'. The main content area is divided into two sections. The top section is titled 'Week 1 Assignments' and contains a message: 'No content. Not visible to students'. The bottom section is a large dashed box with an upward arrow icon and the text 'Drop files here to add to module' and 'or choose files'. On the right side of the interface, there is a 'Course Status' section showing 'Unpublished' with a dropdown arrow. Below this is a list of actions: 'Import Existing Content', 'Import from Commons', 'Choose Home Page', 'View Course Stream', 'Course Setup Checklist', 'New Announcement', 'Course Analytics', and 'View Course Notifications'. At the bottom right, there is a 'Coming Up' section with a 'View Calendar' link and the text 'Nothing for the next week'.

Step 3: Open the Module Options Menu

Select the three-dot menu to the right of your module.

Note: The module you launch the McGraw Hill Integration from determines where Connect initially creates your assignment link(s). You can move them afterward if needed.

Step 4: Select the McGraw Hill Integration

Click **McGraw Hill Integration**.

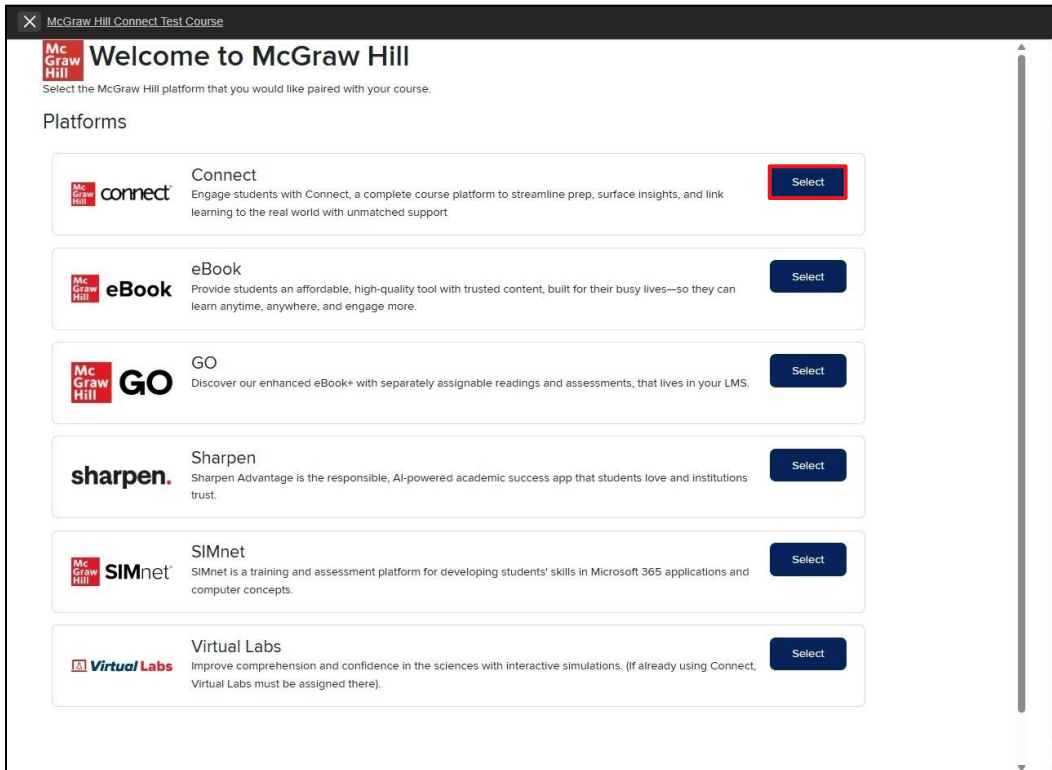

Note: The tool title may be different in your Canvas environment.

The screenshot displays the Canvas LMS interface. On the left is a dark sidebar with navigation icons and labels: Account, Dashboard, Courses, Calendar, Inbox, History, Commons, and Help. The main content area is titled 'McGraw > Modules' and includes a 'View as Student' button. Below the title are buttons for 'Collapse All', 'View Progress', 'Publish All' (with a dropdown arrow), and a blue '+ Module' button. A list of module items is shown, including 'Week 1 Assignments', 'Grades', 'People', 'Pages', 'Files', 'McGraw Hill Integration', 'Outcomes', 'Rubrics', 'Quizzes', 'BigBlueButton', 'Collaborations', 'Item Banks', and 'Settings'. A context menu is open over the 'McGraw Hill Integration' item, listing actions: Edit, Move Module..., Assign To..., Delete, Duplicate, Send To..., and Copy To... The 'McGraw Hill Integration' item in the list is highlighted with a red border.

Step 5: Select Connect

Select **Connect** if Canvas prompts you to choose a McGraw Hill platform.

The screenshot shows a web browser window with the title "McGraw Hill Connect Test Course". The page content includes the McGraw Hill logo and the heading "Welcome to McGraw Hill". Below this, a subheading reads "Select the McGraw Hill platform that you would like paired with your course." The main section is titled "Platforms" and lists six options, each with a McGraw Hill logo, a platform name, a description, and a "Select" button. The "Connect" option is highlighted with a red border around its "Select" button.

McGraw Hill **connect**[®] **Connect**
Engage students with Connect, a complete course platform to streamline prep, surface insights, and link learning to the real world with unmatched support. **Select**

McGraw Hill **eBook** **eBook**
Provide students an affordable, high-quality tool with trusted content, built for their busy lives—so they can learn anytime, anywhere, and engage more. **Select**

McGraw Hill **GO** **GO**
Discover our enhanced eBook+ with separately assignable readings and assessments, that lives in your LMS. **Select**

sharpen. **Sharpen**
Sharpen Advantage is the responsible, AI-powered academic success app that students love and institutions trust. **Select**

McGraw Hill **SIMnet**[®] **SIMnet**
SIMnet is a training and assessment platform for developing students' skills in Microsoft 365 applications and computer concepts. **Select**

Virtual Labs **Virtual Labs**
Improve comprehension and confidence in the sciences with interactive simulations. (If already using Connect, Virtual Labs must be assigned there). **Select**

connect®

Step 6: Begin the Pairing Process

Click **Begin** to establish your user pairing and course pairing.

Establishing Your User Pairing (Single Sign-On)

Step 7: Create or Sign In to Your Account

If you're a new user, click **Create Account** on the right side of the page.

If you're a returning user, or you use a different email address in Connect than in Canvas, use the left side of the page to **Sign In** instead.

Pairing with an Existing Connect Course

Step 8: Pair with an Existing Connect Course

Click **Pair with existing Connect course**.

The screenshot shows the McGraw Hill Connect interface for pairing a Canvas course. At the top left is the McGraw Hill Connect logo. Below it is a link that says "< Back to Canvas". The main heading is "Pair your Canvas Course with Connect". Below this heading are two buttons: "Pair with existing Connect course" (highlighted with a red border) and "Pair with new Connect course" (outlined in blue). The word "or" is placed between the two buttons. At the bottom left, there is a copyright notice: "© 2026 McGraw Hill. All Rights Reserved." At the bottom right, there are four links: "Terms of Use", "Privacy Center", "Accessibility", and "Report Privacy".

Deploying Your Connect Assignments

Tip! Be sure not to have any other McGraw Hill Connect tab or window open in your browser when you deploy new assignments, as this can result in your assignments being placed in a pending state.

Step 11: Open Assignment Actions

Click **Assignment Actions**.

The screenshot displays the McGraw Hill Connect 'Manage Assignments' page. On the left sidebar, the 'Assignment Actions' dropdown menu is highlighted with a red box. The main content area shows a notification about new content and a table of assignments. A 'Student progress' summary is visible on the right.

Start Date	Due Date	Points
July 30, 2026	June 1, 2028	100.00

Student progress

- 0 Not started
- 0 In progress
- 0 Completed

Step 12: Deploy to Canvas

Click **Deploy to Canvas**.

The screenshot shows the McGraw Hill Connect interface for a course section. The main heading is "Manage Assignments". A notification banner at the top states "New Content Available in Your Section!". Below this, there are buttons for "Assignment Actions", "Organize", and "Filter". The "Assignment Actions" dropdown menu is open, and the "Deploy to Canvas" option is highlighted with a red box. Other options in the menu include "Manage assignment dates", "Give assignment extensions", "Hide assignments", "Share assignments", and "Delete assignments". To the right of the menu, there is a "Points" column showing "100.00". On the far right, a "Student progress" summary shows 0 Not started, 0 In progress, and 0 Completed. The left sidebar contains various course management tools like "Student Roster", "Manage Instructors", "Course Materials", "Instructor Resources", "Media", "View Reports", "Launch Test Builder", and "AI Feature Settings". The bottom of the page includes a copyright notice for 2026 McGraw Hill and a footer with links for Terms of Use, Privacy Center, Report Piracy, Contact Us, Accessibility, Troubleshooting, and Blog.

Deploy

Step 15: Wait for Deployment to Complete

Your assignment deployment is in progress. Leave this page open until the process is completed; the page closes automatically when deployment finishes.

When Connect deploys assignments to Canvas, it adds them to the Assignments area of your course (in the first grouping) and automatically creates the matching module link. Connect also creates the associated grade column for graded assignments; it does not create a grade column for ungraded assignments.

Step 16: Confirm the Assignment in Canvas

Example of a deployed assignment within Canvas.

Note: Be sure to publish the module and the assignment so students can access it.

Step 17: Confirm the Assignment in Connect

Example of a deployed assignment within Connect. Notice the Canvas logo to the right of the deployed assignment.
