Student engagement is key to success. Are you looking for new ways to engage your students? You can do this with digital tools like SmartBook 2.0 to captivate students and ignite learning. Unanimously instructors say SmartBook 2.0 helps students be better prepared for class, whether online or in person.

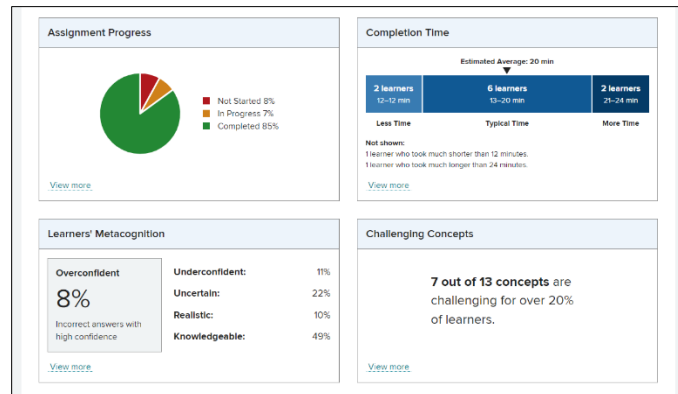

“I use SmartBook 2.0 for both my online and in-person classes. Students frequently tell me how it supports their learning by focusing on the right content.”

- Tammy Stephenson, University of Kentucky

With SmartBook 2.0, you can meet students where they are. The Read Anywhere app allows students to study anytime, anywhere. Because students have a baseline knowledge of the content, they can explore topics in group discussion or active learning environments.

SmartBook 2.0 adapts to all students' needs with individualized learning paths, which captivates their attention and increases productivity.

“When I have a student who is struggling, the first thing I do is go back to see how s/he did on the SmartBook material.”

- Will Krieger, University of Rhode Island

Wondering what topics to focus on during lecture? Use actionable reports to save time and identify exactly what your students need to know. With SmartBook 2.0, it's easy to see where students need assistance so you can intervene to ensure they get the help they need. With SmartBook 2.0, students will be better prepared, you will save time, and ultimately increase student engagement.

“Looking at the statistics, students who use SmartBook have higher test scores and overall scores than those that don't.

That is the best gauge of student success in my mind.”

- Wes Rogers, Georgia Gwinnett College
