Introduction

The purpose of this document is to provide the steps and details needed by the LMS Administrator to add McGraw Hill GO to D2L (Brightspace). Complete the steps in partnership with your McGraw Hill representative to ensure proper set-up.

- Confirm with your McGraw Hill representative that they have completed their steps for initial integration.
- Configure LTIA for McGraw Hill GO, as shown in the first part of this guide.
- Contact your McGraw Hill representative to complete the integration.
- Contact McGraw Hill Support (see last page) if you have any questions or encounter any problems with the set-up.
Configure LTIA for McGraw Hill GO in D2L

STEP 1: Log in as D2L Administrator and go to Admin Tools (Gear Icon)

STEP 2: Click Manage Extensibility in the Organization Related section

2.1. Click LTIA Advantage

2.2. Click Register Tool

2.3. On the Register Tool page, select Dynamic, and fill in the Tool initiation registration endpoint. Note that the URL will be in the format shown below and should include the LMS installation ID provided by your MH representative.

https://router-integration.mheducation.com/v1/lms/{lms_installation_id}/register

Click Configure Deployment and click Register.
STEP 3: Click into the new McGraw Hill GO tool

3.1. Set the tool to Enabled

3.2. Verify that the **Substitution Parameters** are as shown below.

3.3. Verify that the **Custom Parameters** are the ones shown below and click **Save**.
STEP 4: Click View Deployments at the bottom of the page (Edit McGraw Hill GO)

4.1. Click into the tool

4.2. Under Security Settings select the following:

4.3. Under Configuration Settings select the following:
4.4. IMPORTANT: Make the tool available for the desired Org units.

4.5. Click Save and Close.

Having completed setup in D2L for McGraw Hill GO let your MH representative know, and they will complete the REST API configuration in MH L*Services.
