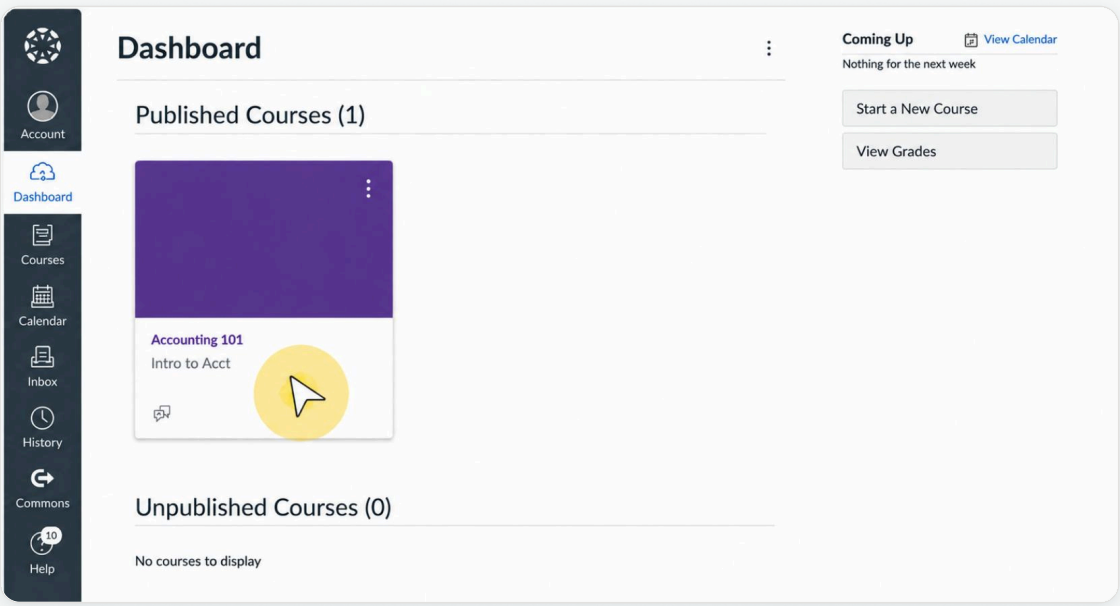
How to Pair Your Canvas Course with Sharpen Advantage

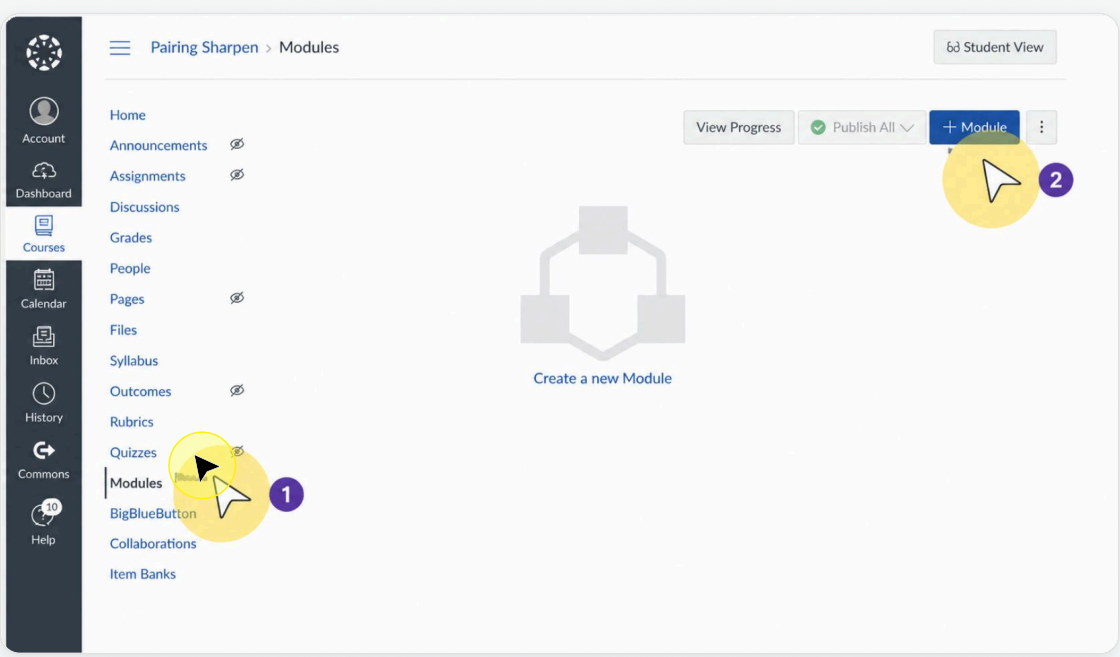
Step 1

Open the **Canvas course** you would like to pair with Sharpen Advantage.



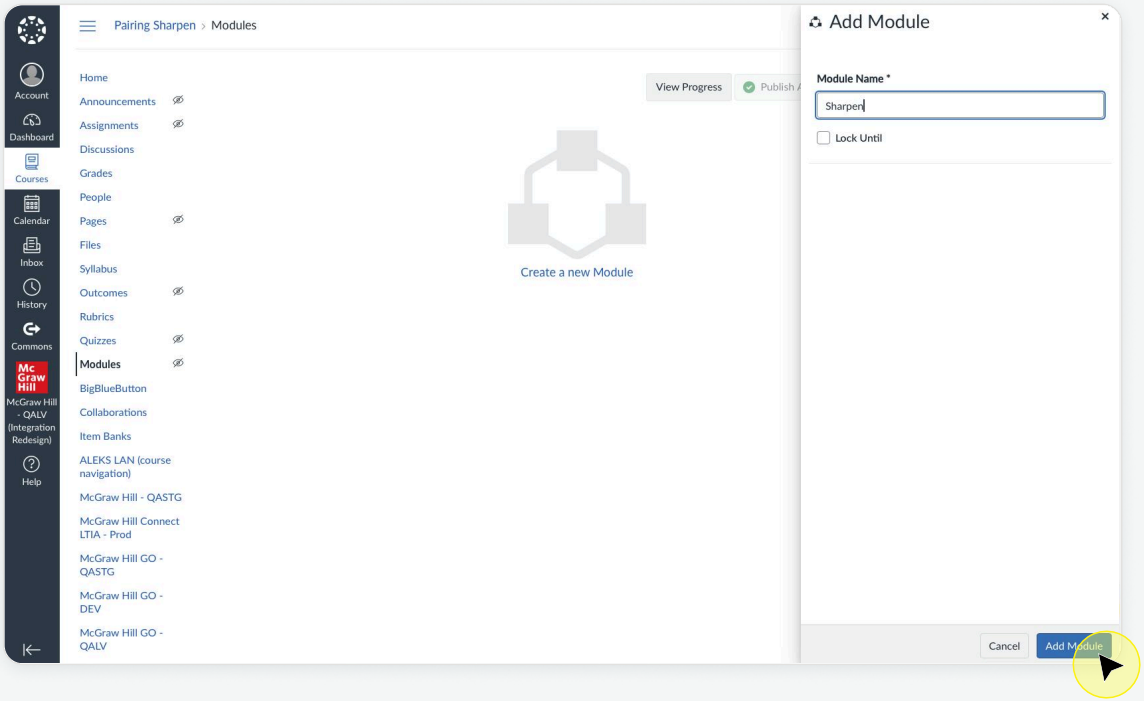
Step 2

On the left-hand menu, select **Modules.** Then click the blue **+ Module** button.



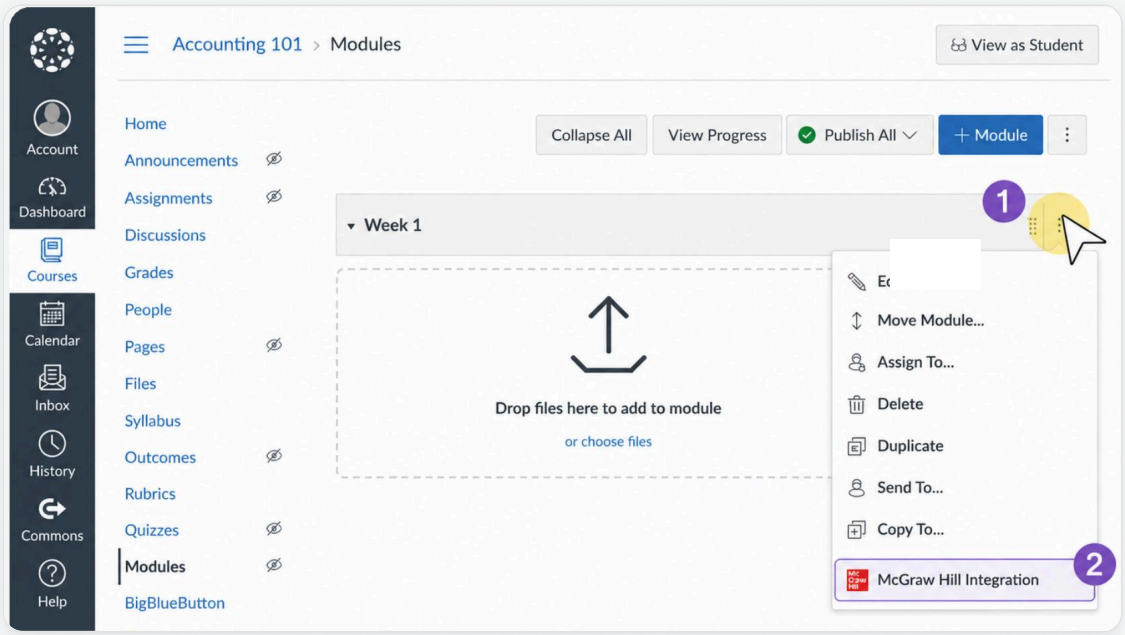
Step 3

Enter a name for your module (e.g., Week 1), then click **Add Module** to save.



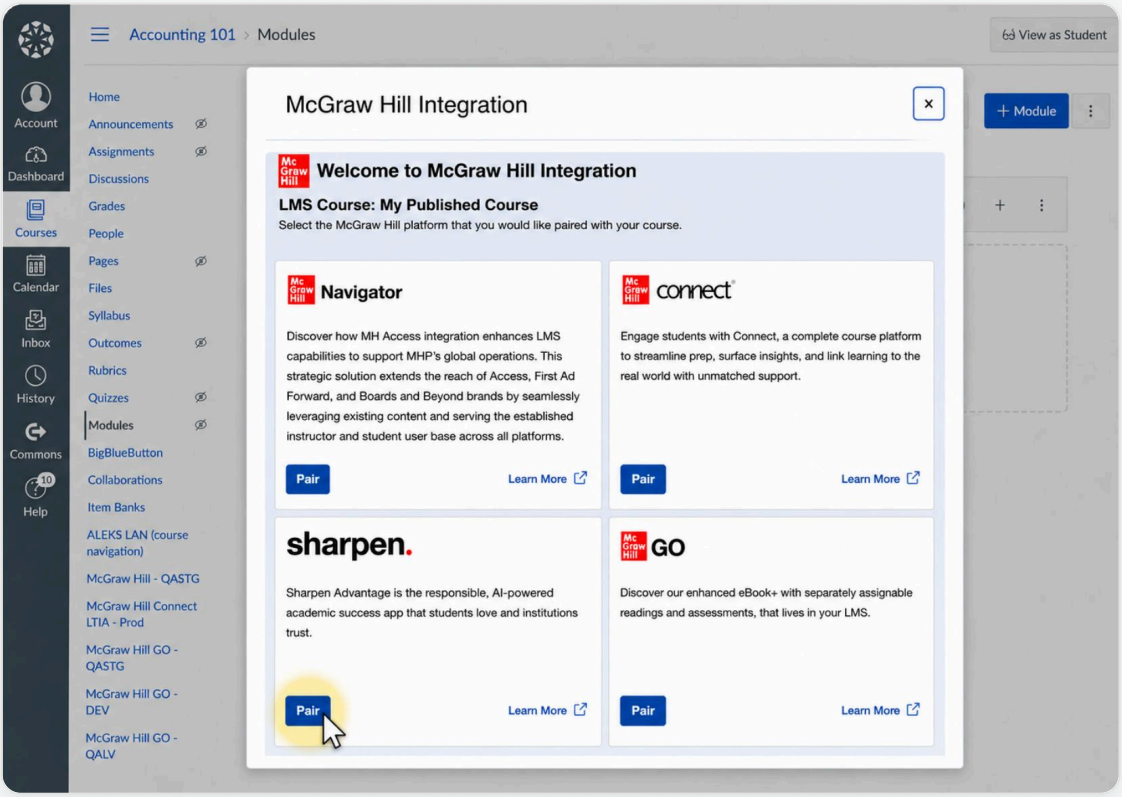
Step 4

Click the **three-dot menu,** then select **McGraw Hill Integration.**



Step 5

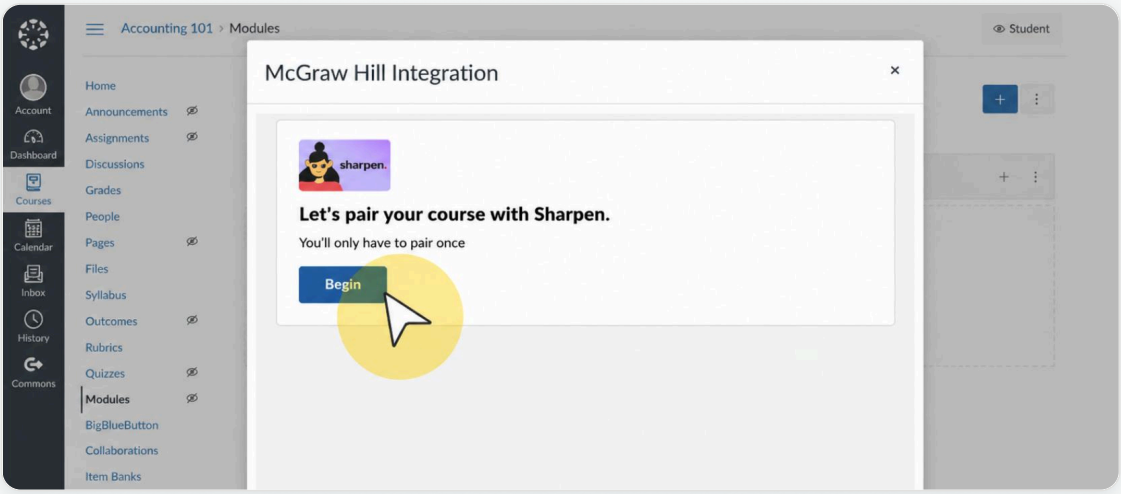
In the pop-up window, locate Sharpen, then click **Pair.**



Step 6

In the pop-up window, click **Begin.**

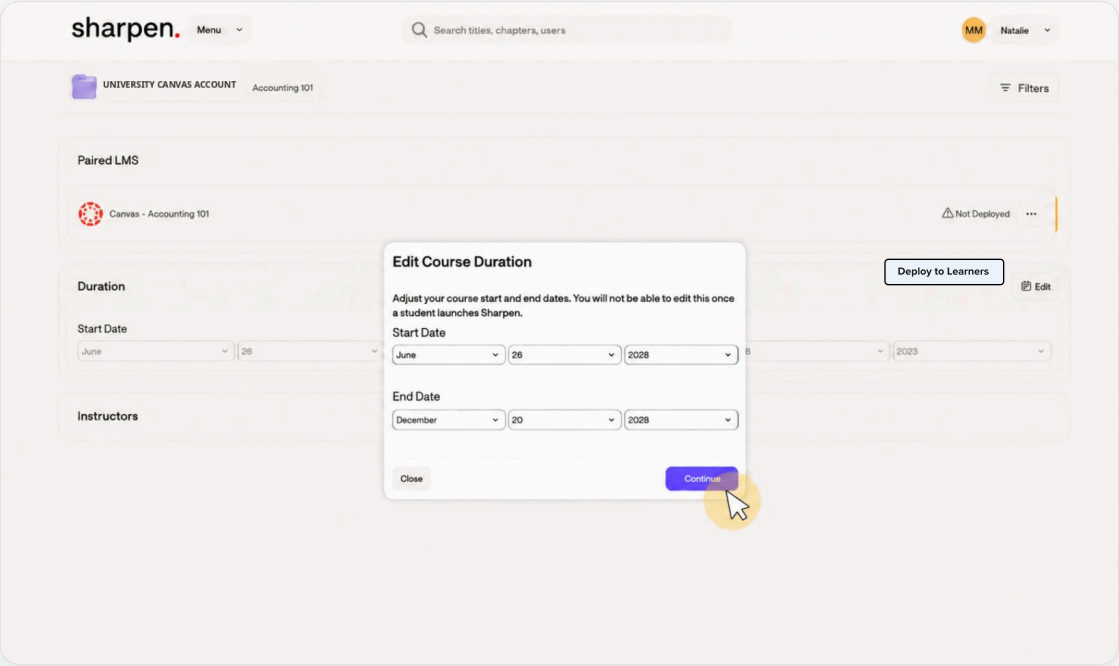
Important action item: Once the first student registers for Sharpen, you will not be able to edit these dates.



Step 7

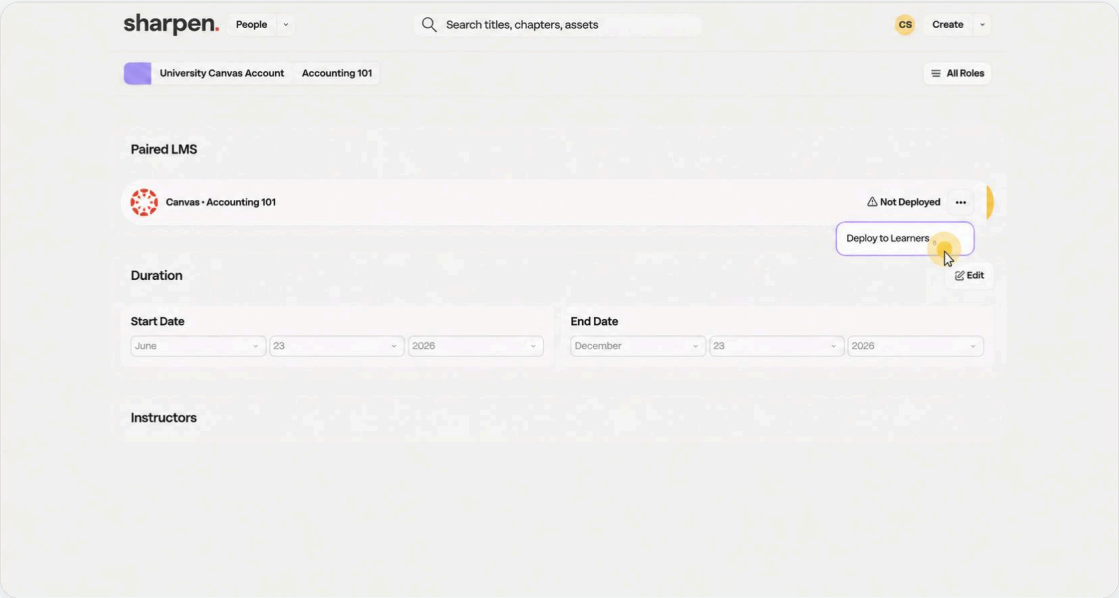
Sharpen will open in a new tab. Enter your course start and end dates, then click **Continue.**

Important: You cannot edit these dates after the first student registers for Sharpen.



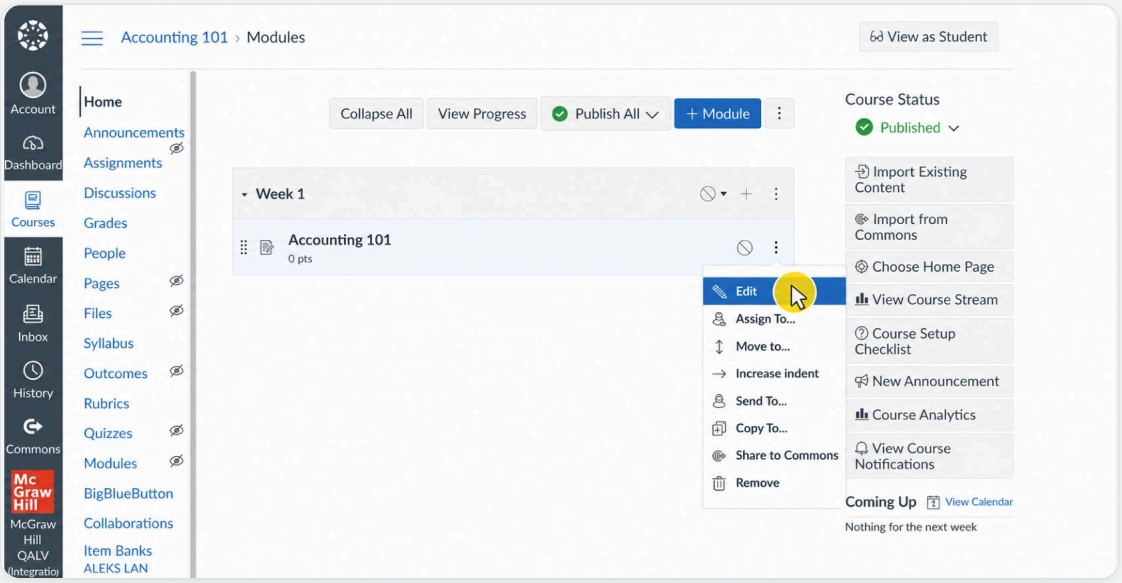
Step 8

Click the **three-dot menu,** then select **Deploy to Learners**



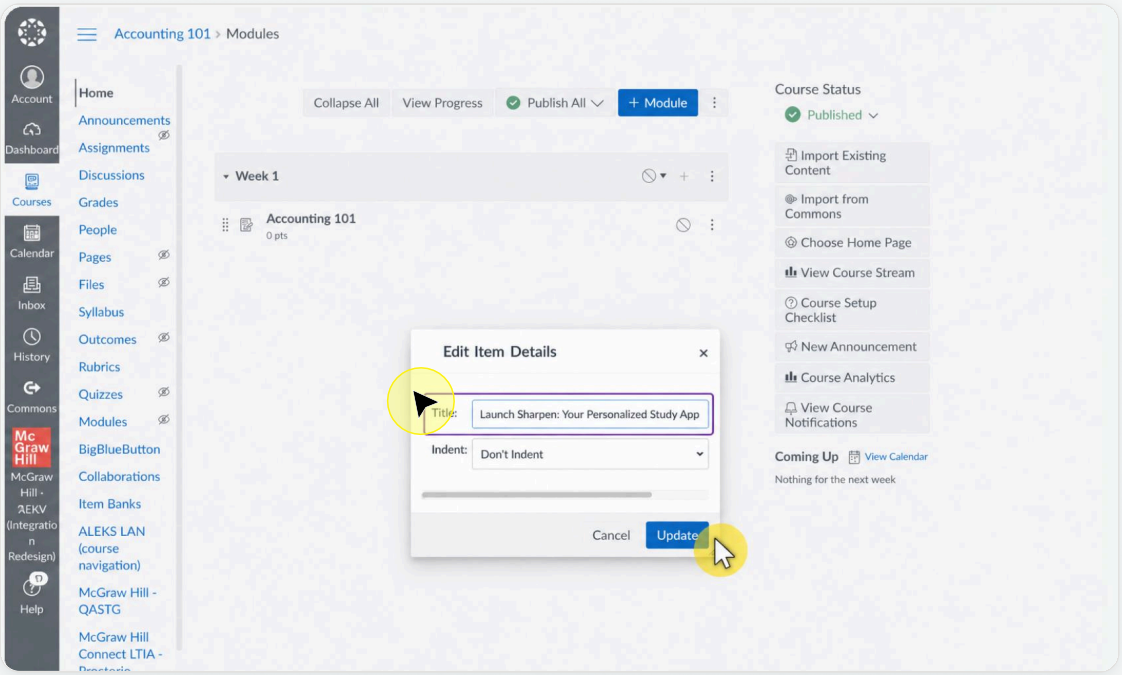
Step 9

Return to Canvas and locate the Sharpen launch link. It will have the same name as your Canvas course. Click **Edit** to change the name.



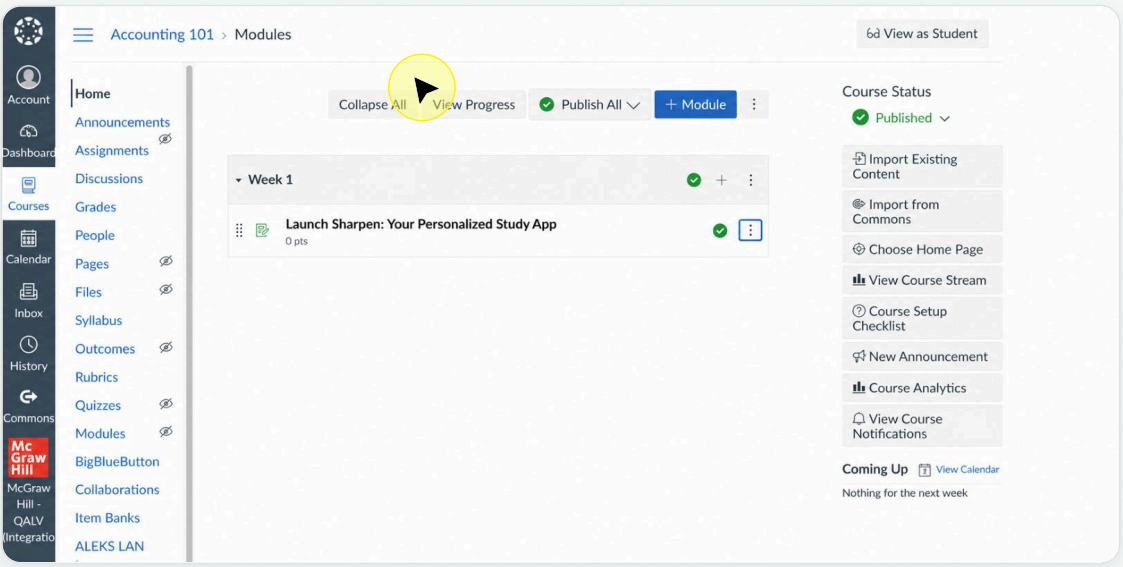
Step 10

Enter a title for the Sharpen launch link, then click Update.
Suggested title: Launch Sharpen: Your Personalized Study App



Step 11

Your course pairing is complete.

Ask students to click **this link** on the first day of class to register for Sharpen. They must click **this link** to register.


Important action item: You must publish and share a playlist before the first day of class. Otherwise, students will see a blank screen when they first log in to Sharpen.
