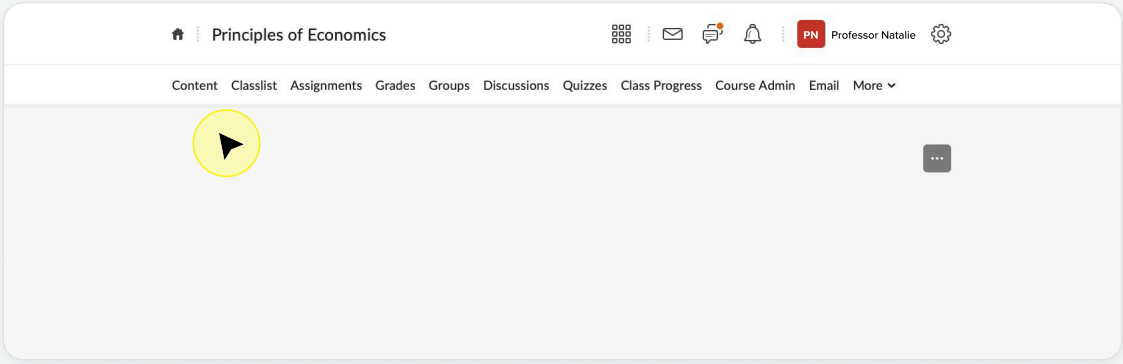
How to Pair Your D2L Course with Sharpen Advantage

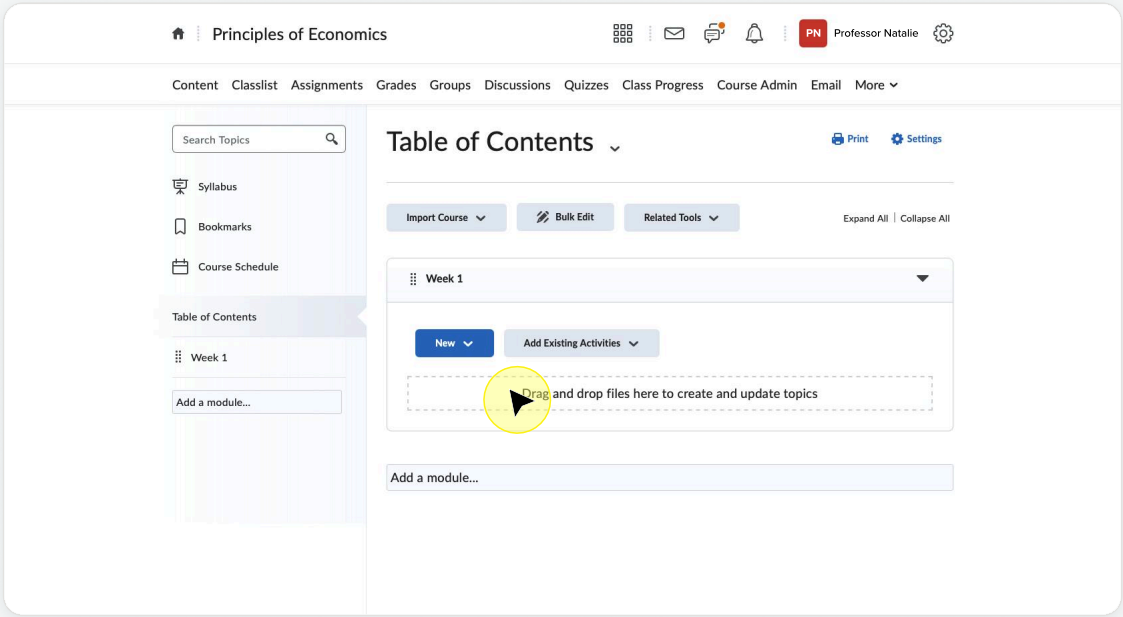
Step 1

Open the **D2L course** you would like to pair with Sharpen Advantage.



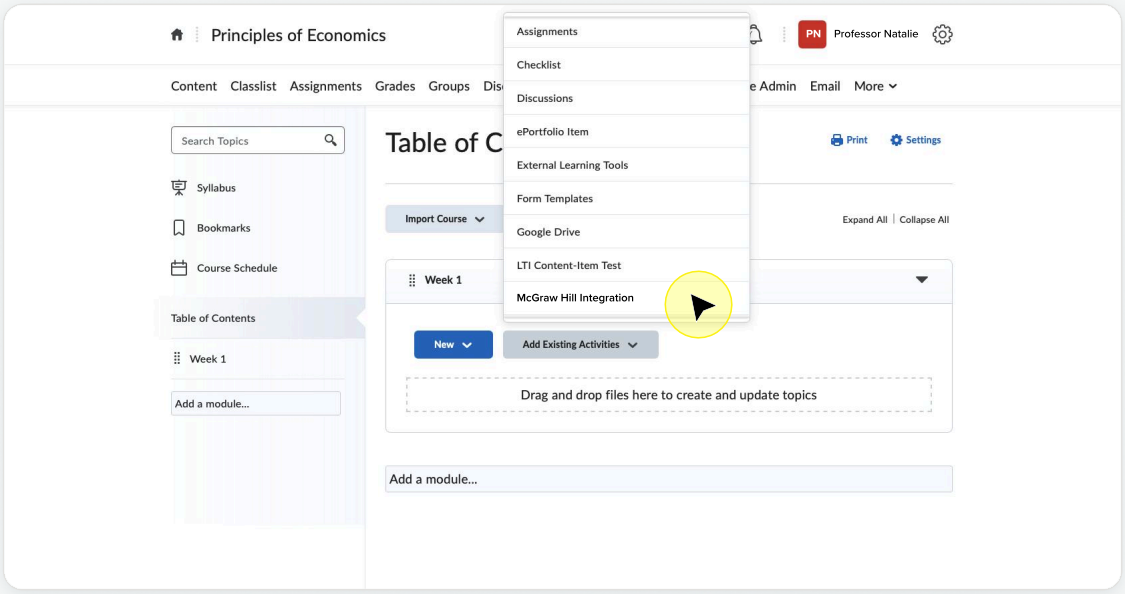
Step 2

In your **Week 1** module, select **Add Existing Activities.**



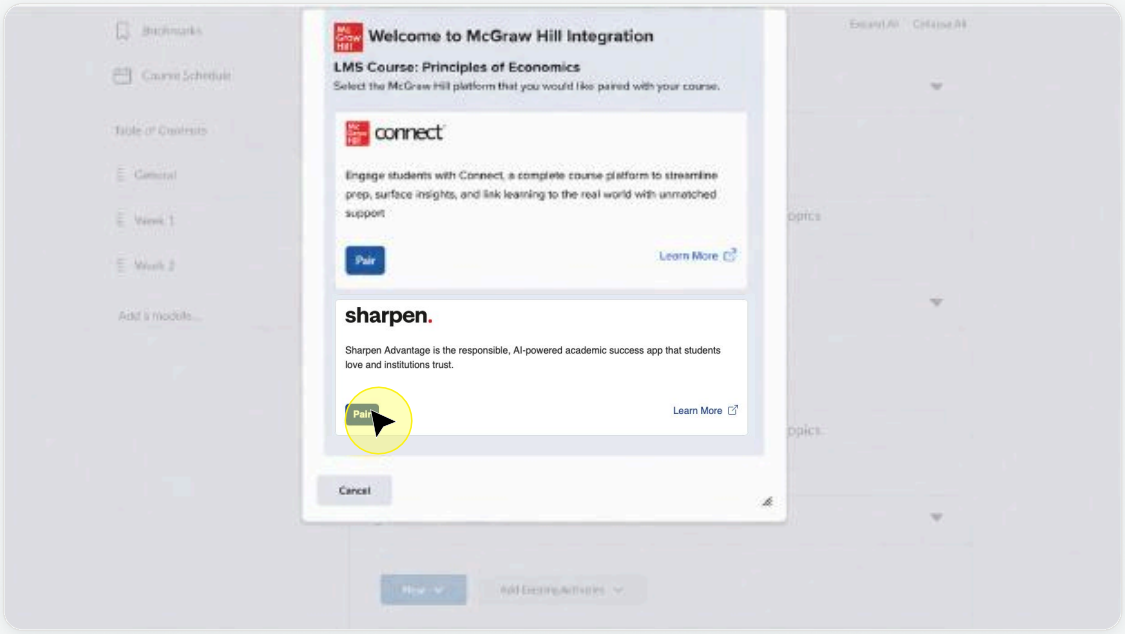
Step 3

From the dropdown menu, select **McGraw Hill Integration.**



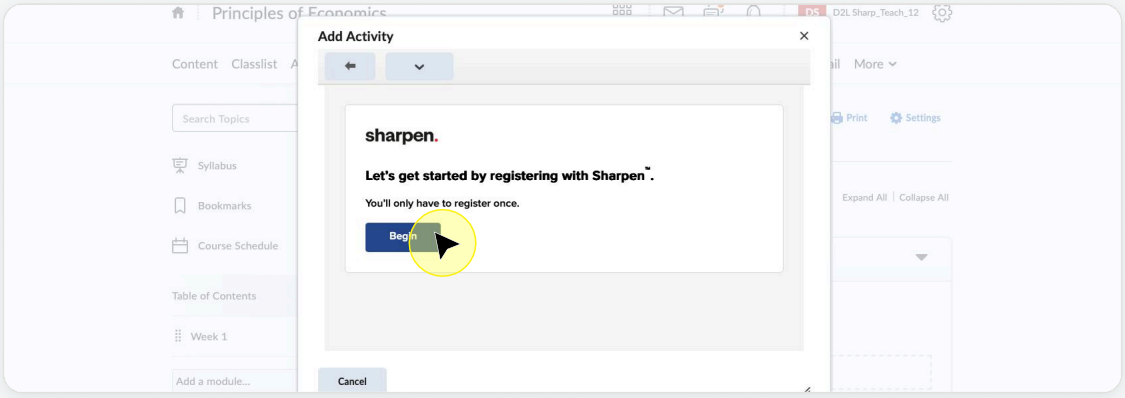
Step 4

In the pop-up window, locate Sharpen, then click **Pair.**



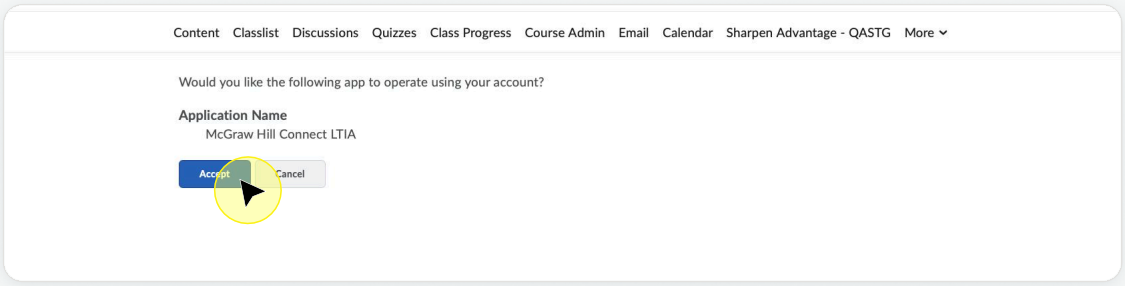
Step 5

When prompted to register with Sharpen, click **Begin.**



Step 6

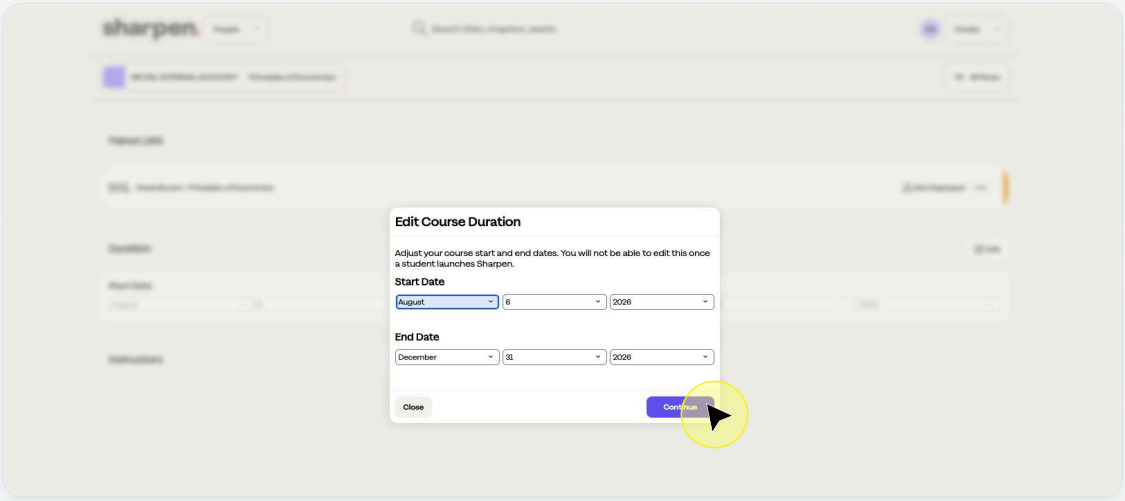
Select **Accept** to add the application.



Step 7

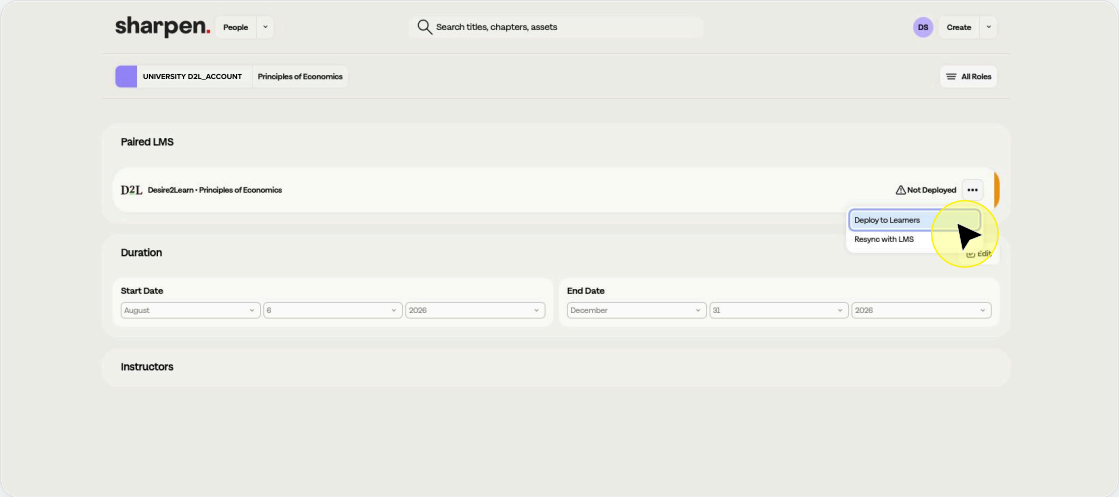
Sharpen will open in a new tab. Enter your course start and end dates, then click **Continue.**

Note: Once a student launches Sharpen, you will not be able to edit these dates.



Step 8

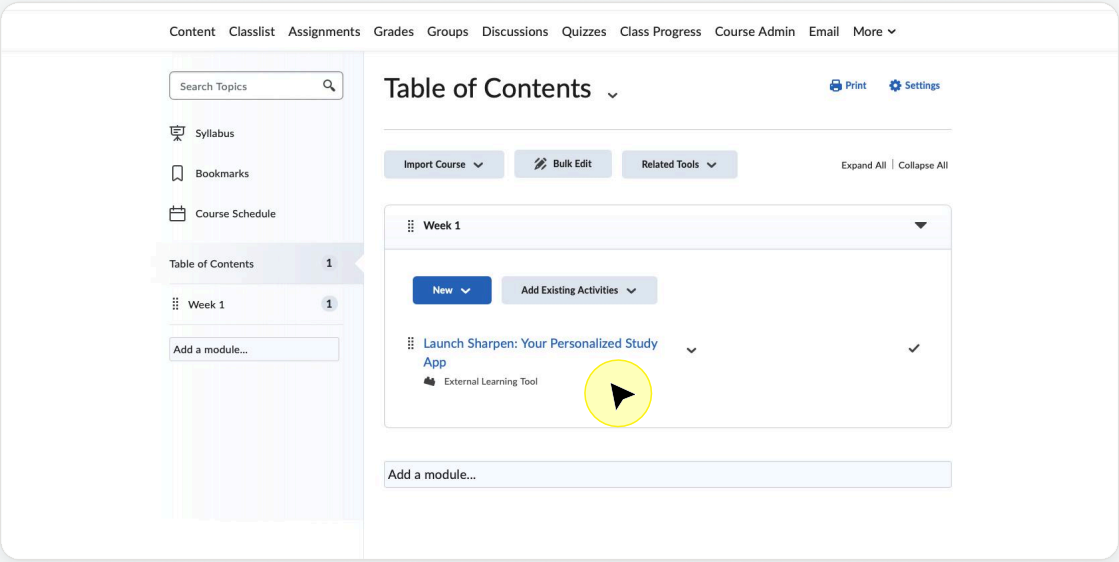
Click the **three-dot menu,** then select **Deploy to Learners.**



Step 9

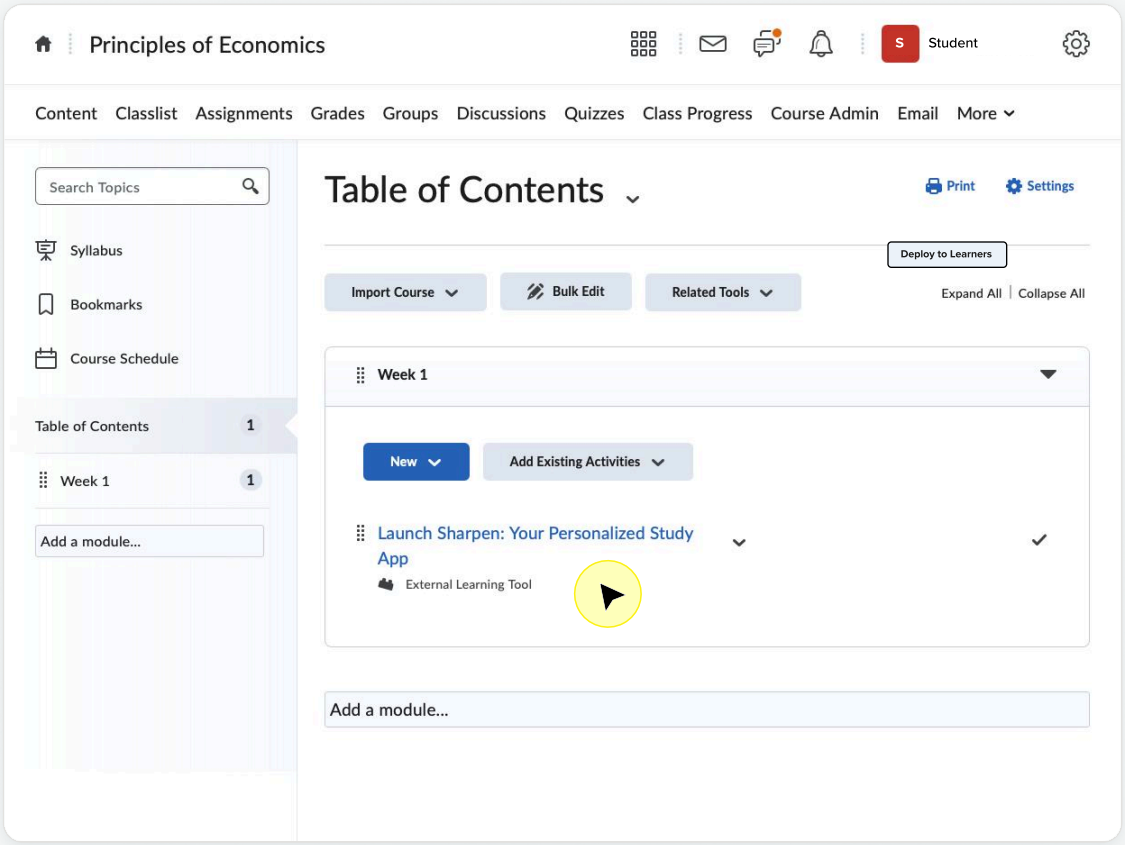
Return to D2L and locate the Sharpen launch link. Click **Edit Properties** In-place to edit the link name and click **Update.**

Important: Launch Sharpen: Your Personalized Study App



Step 10

Your course pairing is complete.

Ask students to click **this link** on the first day of class to register for Sharpen. They must click **this link** to register.


Important action item: You must publish and share a playlist before the first day of class. Otherwise, students will see a blank screen when they first log in to Sharpen.
