

McGraw Hill Assignment Sync and Grade Passback Brightspace® Quick Start Guide

The **McGraw Hill LTI® Link: Grades and Assignment Integration** tool syncs assignments and grades between the programs hosted on the McGraw Hill platform and your Brightspace® Learning Management System (LMS).

1. In Brightspace, select your course from the menu.
2. Click on **Content**.

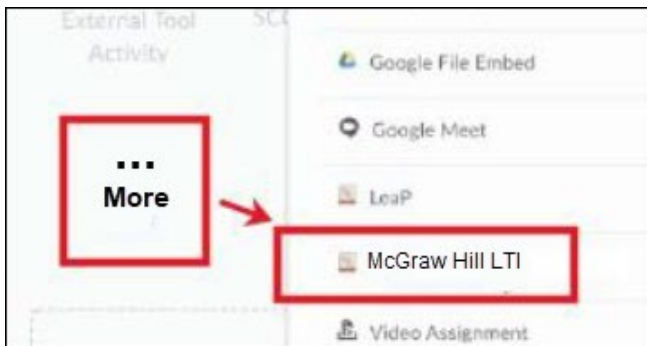

3. Select the unit, lesson, or folder from the left panel.
4. Click the **Add Existing** button.

If no unit is available, click the **+New Unit (A)** button.

5. Click **More** and select **McGraw Hill LTI** from the menu.

Installation of this app is completed by your District Administrator. If you do not see the app, please reach out to your District Administrator or Curriculum Coordinator.

6. Click the **Pair** button that corresponds with the Brightspace course you selected.

Each McGraw Hill class should be paired with **only one** Brightspace course.

You can now add StudySync ©2021 assignments and view grades using the options from within the tool. For detailed instructions on adding and creating assignments, refer to the [StudySync Assignment Sync and Grade Passback with Brightspace](#) article.
