**Successful improvements from the previous editions
have been built on in the 6th edition:**

- Many new readings have been added and some older readings have been replaced.
- Chapter 1 contains a fuller discussion of cognitive biases, sociocentrism, and subjectivism.
- The discussion of logical relevance in Chapter 5 has been clarified and expanded.
- Two new fallacies (composition and division) have been added to Chapter 6.
- The media section of Chapter 14 has been completely rewritten in light of rapid and tectonic changes to the whole media environment and current politics.
- New and updated exercises and examples have been added throughout the book.
- In a continuing effort to keep the text as affordable as possible, several chapters have been streamlined.
- The Instructor's Manual and other online resources have been updated and expanded.
