SupportAtEveryStep.com: Your place for above and beyond in-person and self-service support.

McGraw-Hill Connect® is a course management and adaptive learning solution that enhances your unique voice and teaching style. As your partner, we're committed to helping you achieve your course goals and unlock student potential. That's why we've made meaningful updates to this edition.

New In Connect:

Tableau Dashboard Activities – Allows students to explore Tableau-based data visualizations to find the relevant accounting information they will need to analyze accounting data on three levels. At each level, students answer questions designed to check their understanding, apply what they have learned, and think critically about the goal of the assignment.

Applying Excel – Helps students master core accounting procedures while working directly within Excel. Instructional videos and auto-graded questions that provide instant feedback to students ensure they fully understand the power of Excel.

General Ledger Problems – An accounting cycle overview for recording financial transactions and creating financial statements that hyperlinks links entries between statements, mimicking real-world Accounting software. Easy no-scroll navigation and instant “Check My Work” feedback shows how data affects each stage of the Accounting process.

Need-to-Know Videos – Videos reinforcing material covered in Need-to-Know illustrations, which are demonstrations (with full solutions) that pose questions on content key to learning success in accounting.

SmartBook® 2.0 – Our adaptive reading experience has been made more personal, accessible, productive, and mobile.

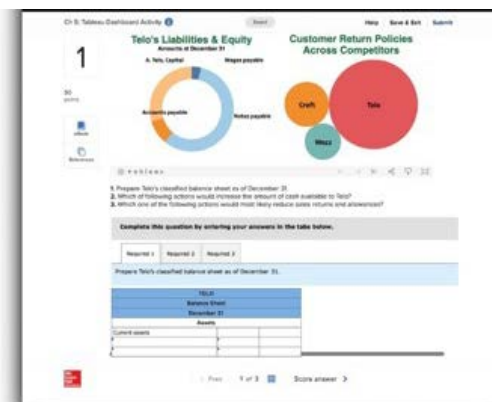

Tableau Dashboard Activities

Learning that Fits
