

Say goodbye
to complex
or outdated
equipment and
save time on
presentation day!

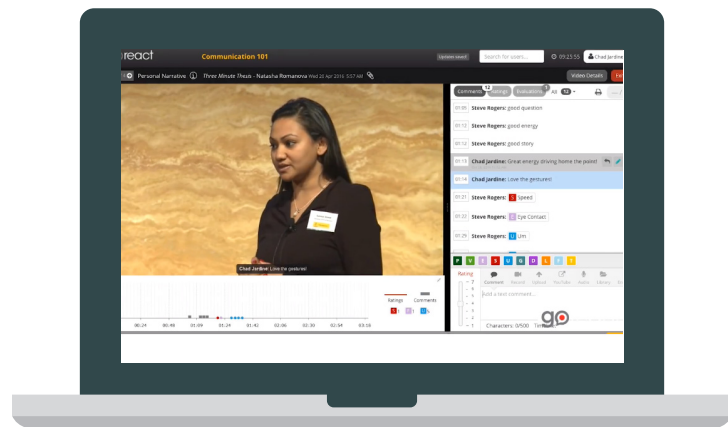

Introducing Video Capture Powered by **go**react

With just a smartphone, tablet, or webcam, students and instructors can capture video of presentations with ease. Video Capture Powered by GoReact, fully integrated in McGraw-Hill's Connect platform, doesn't require any extra equipment or complicated training. All it takes is five minutes to set up and start recording! Create your own custom Video Capture assignment, including in-class and online speeches and presentations, self-review, and peer review. With our customizable rubrics, time-coded comments, and visual markers, students will see feedback at exactly the right moment, and in context, to help improve their speaking, presentation skills and confidence!

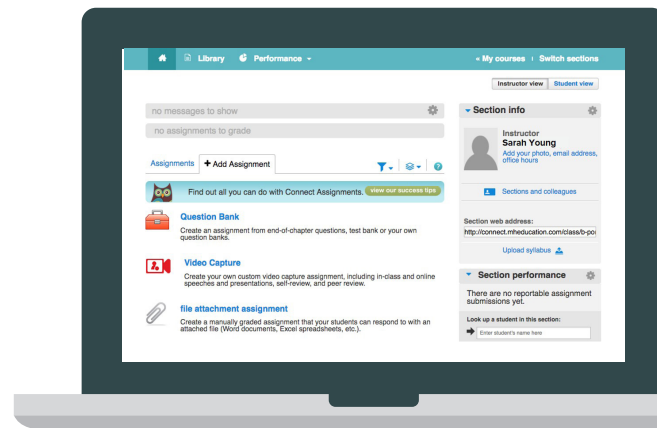

- Time-coded feedback via text, video & audio
- Visual markers for short-hand, repetitive comments
- Customizable rubrics

Functionality list

- Asynchronous video
- Synchronous screen capture & video (“Live Event”)
- Group assignment/presentation
- Presenter split screen for visual aids or presentation decks
- Customizable rubrics
- Self and peer review
- Time-coded feedback with text, video & audio
- Customizable in-line comment markers
- Rubric placement and comment box next to video for easier grading
- Mobile recording & uploading
- Improved accessibility
- Deep integration with most Learning Management Systems via McGraw-Hill’s Connect

“ GoReact in partnership with McGraw Hill Connect is a game changer. Teaching public speaking comes with challenges; however, speech assignments through GoReact make the process streamlined - from assigning, to submitting, to grading. The ability to leave audio and video feedback, as well as visual “markers”, eases the workload burden and brings back the fun in the grading process. Students have a streamlined and accessible way to submit speeches and complete self or peer reviews in an efficient and thoughtful manner. This partnership brings the best of both worlds – superior McGraw-Hill content mixed with GoReact’s top of the line speech tool. ”
