Agnes Berta
Connect Student
Winston Salem State University

I used Connect because...

"I have A&P class currently and I am using it to complete assignments and quizzes."

The thing I liked most was...

"the practice tests and using LearnSmart®. I also enjoy the interactive diagram exercises."

I would recommend Connect to students who...

"everyone who wants to learn anatomy or needs anatomy for their degree. I also recommend it to non-traditional adult students who may have not been in school for some time and struggle with retaining a lot of information in a short period of time."

I found the experience...

"very useful, helpful, reducing study time and getting to the point. The exercises are easily understood not like some courses in some institutions."

The result in my grade improvement was...

"I currently have A's in both lab and lecture."

Connect made me happy because...

"I have A's so far and I am happy with Connect. It gave me confidence and control that 'yes I can do the class and learn effectively at the same time.'"

Connect helped me by...

"preparing me for exams, practice interactive exercises, use practice tests and focus on the information that I need to learn still and see what I already know."
