Connect Student

Southwestern Illinois College

The result in my grade improvement was...

“I was able to receive an A! Connect made this possible.”

I found the experience...

“to be great. I hope that I can use Connect for future biology classes!”

Connect helped me by...

“providing a great study tool. I was able to understand the text content so much better by using the LearnSmart® tools. I also felt like the reviews that were in the book were a great study tool for lecture exams.”

I would recommend Connect to students who...

“are in a biology class and want the extra enrichment and study tools for you to succeed!”

The thing I liked most was...

“it was so easy to find what I needed. It was organized in a matter that made it easy to get to the videos, images, and the specific content that I needed.”

Connect made me happy because...

“I had the tools I needed in the palm of my hands.”
