Brittany Lajoie
Connect Student
South University

I used Connect because...
"it was easy to use and collaborate online with class."

The result in my grade improvement was...
"tremendous!"

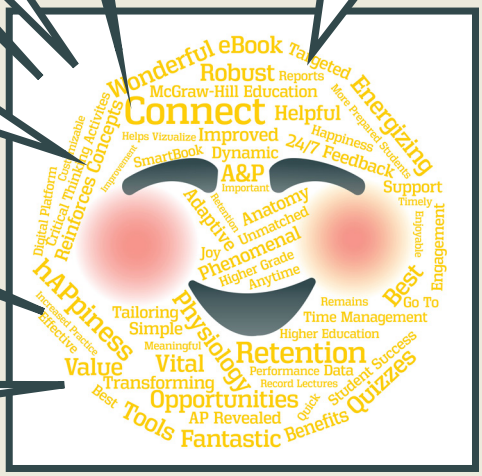
The thing I liked most was...
"I could learn on my own time in my own home environment."

I would recommend Connect to students who...
"enjoy learning on their own time and at their own pace."

Connect helped me by...
"being very accessible and always available when needed for class."

I found the experience...
"helpful and interactive."

Connect made me happy because...
"I actually learned the material rather than just memorizing."



Because learning changes everything.™
