The result in my grade improvement was...

“great!”

The thing I liked most was...

“how realistic the cadaver tool was!
“Peeling” away the layers was awesome.”

Connect helped me by...

“giving me different ways of studying. It helped me to review more frequently and allowed me to go back through assignments as a study tool..”

Connect made me happy because...

“it improved my grade.”

I would recommend Connect to students who...

“have a hard time finding ways to study for such a rigorous course. It is great to use as a study tool on the go!”

I found the experience...

“very helpful!”
