Cori Foley

RN, Mercy Hospital Dubuque, IA
Former Connect Student

My experience using Connect was...

“Beginning A&P is somewhat daunting at times, but having a product like Learnsmart really helps me to be able to manage my timing effectively. I had a product I could go to answer questions and see areas that were my weaknesses and be able to focus on those. AP is really a foundation for nursing and its vital to our profession so being able to pin point the areas I was struggling in really helped me in future courses in nursing.”

The thing I liked most about Connect was...

“We take our boards online so its very important for us to be familiar with the digital product so I really couldn’t imagine this day in age not having a digital product to go to. Like I said, I’m a mom of two so to be able to manage my time more effectively LearnSmart really helped me to do that.”

Connect made me happy because...

“Being able to practice skills, practice assessments skills in a digital environment really helps you in every avenue of nursing. Nursing is my passion—it took me a while to find out what my passion was in a career, and I am so happy that I did pursue it. In life my goal is to, make a difference in the lives of others, its evident in my family life my kids see me very happy in my career, their proud of their mom which makes me so excited.”
