Dave Gayle

Instructor

Long Beach City College

Connect made me happy because...

“students found it useful. It also allowed me to quickly assess the study habits of students and to correlate it with in-class performances on exams and quizzes.”

Connect helped me improve my course by...

“covering topics that I don’t have time to cover. It also reinforced topics that were covered in lecture. Animations and quizzes were also helpful.”

My experience using Connect was...

“helpful. It was an easy way to assign and grade assignments. Some students enjoyed having an online component to the class. It allowed them to learn and perform in a non-classroom environment.”

I chose Connect because...

“it provides an immersive learning experience.”
