

### Anatomy & Physiology

# #MHEhAPpiness

**Dr. Lynn Preston**

Professor

Tarrant County College NW

**Connect made me  
happy because...**

students succeed!

**My experience  
using Connect  
was...**

I have seen a letter grade improvement in most students after I started requiring Connect. I also see how the students ACTUALLY USE Connect and not just mindlessly go through the motions with software. They use it because it works.

**I chose Connect because...**

It rocks! So many products claim to help improve student scores but I am more concerned with students understanding the material. Connect helps my students understand the concepts better than anything I have utilized.

**Connect helped  
me improve  
my course by...**

helping prepare my students for my flipped classroom format. Between Connect assignments and Learnsmart I know my students are ready to come to class and discuss the topics.
