Greg Reeder

Professor
Broward College

My experience using Connect was...

“Not ‘was’, the correct word should be ‘is’ the best educational ‘VALUE’ for all of my students!”

Connect made me happy because...

“Connect has definitely made me a better teacher, more able to respond to the individual needs of every student in my class.”

Connect helped me improve my course by...

“Students coming to class more prepared, students have access to the recorded lectures 24/7, students can take advantage of LearnSmart and SmartBook to customize their learning experience, and because students can access customized and full versions of AP Revealed through Connect for support in lecture and lab.”

I chose Connect because...

“I wanted my students to be more responsible between classes by doing homework assignments through Connect. I also wanted to record my lectures.”
