Connect made me happy because...

“it is easy to learn and use.
Also, the auto-grading is the best!”

My experience using Connect was...

“fantastic. The consultants were helpful
when I was learning how to use Connect.
The auto-grading feature is a life-saver
for me. I appreciate being able to look at
reports on how students’ performance.”

I chose Connect because...

“I wanted my students to work on
auto-graded assignments before
class meetings. Connect auto-
grades for me, which is critical for
me. My classes are large.”

Connect helped me improve my course by...

“providing a variety of
assignments and flexibility in
how I assign the assignments.”
