Miami University

## Connect made me happy because...

“they make it easier to handle the classroom from a variety of points. I am not sure how happy I would be if we did not have very attentive help from McGraw-Hill. I cannot speak highly enough of Daniel and Glenn. They are always helpful, timely, and very good at teaching us the most effective way to use the technology.”

## My experience using Connect was...

“very good. The support I receive from my local MHE team (Daniel Krauss and Glenn Hamersmith) is awesome!”

## I chose Connect because...

“Connect allows me to give my students the opportunity to do activities, read, and take quizzes on line, freeing up class time for me to engage my students better.”

## Connect helped me improve my course by...

“freeing up class time. It grades quizzes for me (love that as someone who is spending over 35 hours a week grading this term), and allows students to have an ebook and a real book.”
