Music Appreciation

My favorite thing about Connect is...

“I like all of it and am especially happy that we now have Learnsmart.”

Connect helped me improve my course by...

“Allowing a more robust way to share music and activities that help students build their musical ears.”

My top 3 tips for using Connect:

- “Make it a reasonable part of the overall grade.”
- “Make sure you give the students the Customer Care access information in multiple places: syllabus, news item.. etc.”
- “REMIND THEM that there is no excuse for not working ... they can sign up and pay later.”

My best advice for a new user:

“Start slowly and build what you want/need..”

What Connect could mean for you:

“You have the ability to monitor at-risk students. The reports are a great resource.”
