Hillsborough Community College

Public Speaking, Interpersonal Communication

My favorite thing about Connect is...

"My favorite feature is SmartBook, it effectively engages the students with the textbook."

Connect helped me improve my course by...

"Connect helped me improve my course by providing students with engaging content that enriches the classroom experience. They come to class prepared and ready for meaningful practice of the content.."

My top 3 tips for using Connect:

- "Align with your student outcomes"
- "Understand the tools from the student view"
- "Pick the best activities for your course."

My best advice for a new user:

"Choose one tool to integrate into your course, make sure that it aligns with student outcomes and it does not increase your work load."

What Connect could mean for you:

"Connect frees me to teach the application of the course content-- the fun part of teaching. Connect preps students with a working knowledge of the course content. Therefore, class can be filled with rigorous activities that stretch each student.."
