Connect Student

Palm Beach State College

I used Connect because...

“it was assigned for my Intro to College class.”

The thing I liked most was...

“that it’s easy to know where to read and focus based on where SmartBook® directs you.”

Connect made me happy because...

“now I know I can manage my time, there’s no need to struggle.”

Connect helped me by...

“teaching me to manage my time, how to take notes, how to be more responsible. It helped me not only in class, but in my life too.”

The result in my grade improvement was...

“great. My grade really improved!”

I found the experience...

“helpful. I will take the advice from this course and materials for my life.”

I would recommend Connect to students who...

“just started college and are going crazy thinking they can’t handle. I was one of them, and taking this class with an amazing professor like Professor Davis makes everything easier and better.”
