Jaclyn McLeod
Connect Student
Tarrant County College

The result in my grade improvement was...

“I made an A in this course and I truly feel that Connect most definitely played a huge role in that, in addition to the extra time, effort, and commitment that I put into it. All of this, paired with an awesome professor, was my recipe for success!”

I found the experience...

“to be both rewarding and very beneficial! It not only increased my level of understanding of the material, but also boosted my confidence all around.”

Connect helped me by...

“providing me with a tool that enabled me to fully engage and keep up with the commitments of this course, even when at times my circumstances didn’t always allow me to do so in person. Being a nontraditional student, and a single parent of 3, Connect made it possible for me to study the material at a time that was most convenient for me and within the comforts of my own home.”

Connect made me happy because...

“it is what enabled me to succeed in a course of this nature and not only that, but it allowed me to do so, under my circumstances. To me, Connect turned something that was once seemingly impossible into something that proved to be very possible.”

I would recommend Connect to students who...

“are in search of helpful resources to assist them with studying for the course. Whether you are a visual, auditory, or a kinesthetic type of learner, Connect offers a little bit of everything. If you are needing to take this course and are actually looking to succeed, get connected with Connect. I guarantee you won’t regret it. If I can do it, you can too!”
