Jana Herron

Instructor

Chattanooga State Community College

Connect made me happy because...

“it was easy! The assignments are easy to create, edit, and maintain. Analyzing data from the assignments is extremely helpful for pinpointing problem areas in the course.”

My experience using Connect was...

“Connect was so user-friendly for me as an instructor that once I had in mind what I wanted to do, there were many ways to achieve that task. Building courses from scratch was monumental, but once I felt comfortable with Connect, I was able to create fully online courses that were comparable to our courses offered on campus.”

I chose Connect because...

“this season of learning will engage more students if technology is part of the package. They use their smart devices constantly, so incorporating a portion of their assignments in Connect is a way to make learning fun and accessible, no matter where they want to study.”

Connect helped me improve my course by...

“providing a way to create assignments that directly relate to the material taught in our textbook, providing access to fabulous tools like the cadaver dissection tool, LearnSmart, LearnSmart Lab, and LearnSmart Prep. I use them all! I get the opportunity to use these tools in the fully online courses, hybrid courses, and to supplement my on campus courses. There are endless ways of teaching these available at our fingertips!”
