The result in my grade improvement was...

"significant because of Connect."

I would recommend Connect to students who...

"are interested in learning and gaining a better understanding of what they are reading."

I found the experience...

"using Connect amazing."

Connect helped me by...

"providing me with a better understanding of each chapter and hints to questions I didn't understand."

The thing I liked most was...

"that each chapter is explained perfectly and is very easy to understand."

Connect made me happy because...

"I am a mother and I work long hours, so when I get home I just want to go to Connect and catch up on my chapters and to understand what I am reading. Connect helped me a lot and I would recommend it to all students. Well done!!"
