Connect Student

Palm Beach State College

I used Connect because...

“it was required by my class.”

Connect helped me by...

“giving me a better understanding of what and how to prioritize with my class.”

I would recommend Connect to students who...

“would like a breakdown of a subject; prioritizing so they would be able to have better grades.”

The thing I liked most was...

“the fill in the blank questions.”

The result in my grade improvement was...

“absolutely amazing and significant.”

Connect made me happy because...

“Connect gives you the opportunity to check your score before submitting an assignment which is really great so you automatically know if you need to check again to get an A.”

I found the experience...

“truly helpful”
