Connect Student

Houston Community College

The thing I liked most was...

“it lets me read the section that is referring to my assessment questions.”

I found the experience...

“nice.”

I would recommend Connect to students who...

“take A&P.”

Connect made me happy because...

“it helped boost my grade.”

The result in my grade improvement was...

“I think Connect has boosted my grade in class.”

Connect helped me by...

“breaking down the information from my textbook.”
