MeKaela Smith

Connect Student

Southwest Tennessee Community College

The result in my grade improvement was...

"I passed the class."

The thing I liked most was...

"the click and drag quizzes."

I would recommend Connect to students who...

"don't fully grasp human anatomy and need help outside of class."

Connect helped me by...

"allowing me to take quizzes and provide me with the correct answers."

I found the experience...

"easy to maneuver."

Connect made me happy because...

"it helped me pass my course and fully understand the human body."
