Cabrillo College

My experience using Connect was...

“Connect is easy to use and students like it. They actually ask me to post assignments. It helps to motivate students and lets them be more actively involved in their learning.”

Connect made me happy because...

“It helps students learn!”

I chose Connect because...

“Connect has so many tools that enhance student learning. LearnSmart assignments and quizzes help students stay on top of material and keep them engaged. I notice that students have better grades when they use Connect.”

Connect helped me improve my course by...

“I am able to assess student gaps in knowledge by analyzing results from LearnSmart and quizzes. I can adjust my lectures accordingly.”
