Connect Student

Palm Beach State College

Connect helped me by...

“helping me organize myself”

I would recommend Connect to students who...

“want to get more organized and keep track of their assignments and grades.”

The thing I liked most was...

“being able to see all of my assignments, when they were due, and what I have accomplished.”

The result in my grade improvement was...

“very high because all of my assignments were in one place and it was very easy to keep track of.”

I found the experience...

“very exciting because I got to watch myself improve and excel.”

Connect made me happy because...

“it improved my study skills and helped me keep track of all my assignments. Being more organized makes me happy.”
