**Ryen Garrett**  
Connect Student  
Houston Community College

### The result in my grade improvement was...

“I made a letter grade higher for my ‘homework assignments’ and I survived A&P I.”

### I would recommend Connect to students who...

“have lab classes, because it had the dissection tool.”

### I found the experience...

“helpful.”

### Connect helped me by...

“quizzing me on the chapter materials.”

### The thing I liked most was...

“being able to check your answer, so you can learn what you did wrong and it gives you input on why that answer is wrong or right.”

### Connect made me happy because...

“it improved my overall grade.”
