Connect Student

Ball State University

I use Connect because...

“it was a requirement in my class, however I am happy that it was.”

Connect helped me by...

“providing me with course relevant materials to practice, learn and study from.”

The thing I liked most was...

“LearnSmart®. The questions provided are an excellent study tool because if you didn't know something, you could look at where the concept was covered in the book!”

The result in my grade improvement was...

“substantial. With Connect, I was able to do well on all of my homework assignments as well my quizzes and exams.”

I found the experience...

“very helpful because it offered me the resources to figure out what areas I needed to study more as well as gave me great practice tests to use before exams.”

Connect made me happy because...

“it helped my grade, helped me learn the material quicker and more thoroughly, and saved me time!”

I would recommend Connect to students who...

“dislike reading the text cover to cover. With LearnSmart and SmartBook®, you can prepare for the upcoming class through practice problems and check your understanding along the way.”
