Courtney King

Connect Student
North Carolina State University

I would recommend Connect to students who...

"struggle to study for tests."

The result in my grade improvement was...

"that I haven't made below a B+ on any test or assignment where I used Connect in the class"

Connect helped me by...

"LearnSmart® helps me prepare and study for tests"

I use Connect because...

"two of my professors required me to buy a Connect code for their class."

Connect made me happy because...

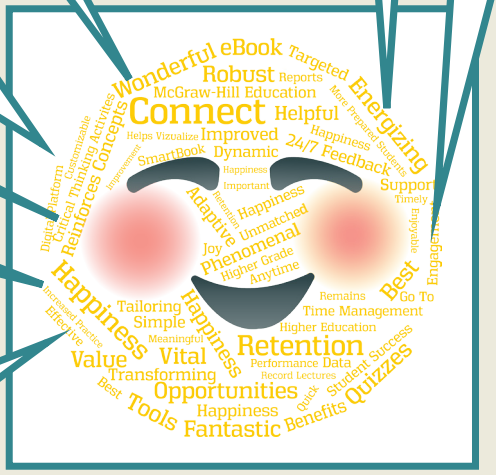
"my grades have been maintained"

The thing I liked most was...

"the ability to read the online textbook while doing homework."

I found the experience...

"helpful!"



Because learning changes everything.™
