Share your Connect happiness:
bit.ly/ManagementStudentHappiness

**The thing I liked
most was...**

“the click and drag’s and the
other interactive exercises.”

**I would recommend
Connect to students
who...**

“prefer visual aids and enjoy not having
to read paragraph after paragraph.”

**The result in
my grade
improvement
was...**

“I got an A.”

**Connect
helped me by...**

“really getting me to learn
and understand vocabulary
and different concepts.”

**Connect made me
happy because...**

“it was user friendly and
easy to navigate.”

I use Connect because...

“it was required for my Organizational
behavior course.”

I found the experience...

“rather pleasing for being school work.”
