### Milea Rusin

Connect Student  
Kean University

#### I use Connect because...

“my professor believed it was the right tool to put us on the path to success!”

#### The result in my grade improvement was...

“tremendous! Because of Connect I was able to boost my grade and I was not only confident in the material I was learning, but I also understood the material instead of trying to simply memorize it.”

#### Connect made me happy because...

“it truly is a great tool to use for success in your classes. It makes learning fun and much easier with business courses that can be a bit tricky to understand.”

#### I would recommend Connect to students who...

“struggle understanding topics covered in class. Connect definitely improves your confidence and retention of materials.”

#### Connect helped me by...

“staying up to date on my tasks and being organized.”

#### The thing I liked most was...

“having the ability to track my performance through the student reports and stay up to date on how I was performing in my class.”

#### I found the experience...

“to be very rewarding. Although the course content can be challenging, the system is very easy to use.”
