Sarah Brandt

Connect Student
North Carolina State University

The thing I liked most was...

"LearnSmart® because it highlights exactly what I need to know."

The result in my grade improvement was...

"I took one test preparing on my own and the other with the Connect tools. I did exceedingly better on the test that I used Connect."

Connect helped me by...

"laying out everything I need for homework and tests in a nice organized fashion"

I found the experience...

"helpful. I didn't have to go into studying for my tests blind because all the homework and readings via Connect helped me with the tests."

I would recommend Connect to students who...

"do not know where to start studying. Connect has great practice tools."

Connect made me happy because...

"it helped my grades!"
