Teresa McHugh

Connect Student

Tarrant County College

The result in my grade improvement was...

“it pushes me and provided me with an A.”

I found the experience...

“I found the experience to be awesome and informational.”

Connect helped me by...

“assisting me with my lab book. It helps visually and tests me on what I do not already know.”

I would recommend Connect to students who...

“whoever is taking a science course.”

The thing I liked most was...

“the Anatomy and Physiology dissection tool!”

Connect made me happy because...

“it helped me get the grade I wanted!”
