Connect Student

Southwest Tennessee Community College

I used Connect because...

“it has my professors assignments as well as PowerPoint[®] files on it.”

The thing I liked most was...

“being given a decent amount of time on the answers.”

The result in my grade improvement was...

“excellent.”

I would recommend Connect to students who...

“need further help outside of the classroom.”

Connect helped me by...

“teaching and showing me what I didn’t understand in class.”

I found the experience...

“to be very helpful.”

Connect made me happy because...

“it helped improve my grade.”
