Detailed List of Features

New Features

The eighth edition includes hundreds of new discoveries and findings from the last three years, including coverage of technoference, Dark Triad traits, and marital paradigms, as well as 686 new references.

New and updated boxed features enhance students’ awareness of the latest developments in the different topics related to close relationships.

Retained Features

Intimate Relationships provides an inviting, highly acclaimed, reader-friendly style that reads like a conversation with the author.

Thought-provoking Points to Ponder based on key concepts have been added at multiple intervals within chapters, urging readers to stop and analyze their own behavior in close relationships. The Points to Ponder invite readers to think more deeply about concepts and to inspect their personal reactions to the text material. The Points also serve as topics for class discussions and individual essays.

For Your Consideration sections offer scenario-based examples of the different aspects of relationship dynamics. Presented in each chapter, the examples allow students to immediately reflect on the material they have learned or serve as topics for in-class discussion.

Chapter summaries highlight the key takeaways of the material presented in the chapters.

McGraw-Hill Connect® is a highly reliable, easy-to-use homework and learning management solution that utilizes learning science and award-winning adaptive tools to improve student results. For students, Connect
uses innovative, interactive technology to enable a more personalized learning experience that better engages students in course content so they are better prepared, are more active in discussion, and achieve better results. Connect allows instructors to give homework assignments with immediate, automatic feedback, upload recorded class lectures and presentations through Tegrity, and track student progress and concept comprehension through robust reporting tools.

Available within Connect, SmartBook™ is an adaptive reading experience designed to help students stay focused and maximize their study time. Based on metacognition, and powered by LearnSmart™, SmartBook’s adaptive capabilities provide a personalized reading and learning experience that helps them identify the concepts they know, and more importantly, the concepts they don’t know.
