

Completing Assignments - Student

Video: [CLICK TO VIEW](#)

Locating Assignments

In the middle of your course home page, you will find your list of assignments.

Assignment Details

Connect offers a variety of assignment types. Your instructor has set specific policies for each assignment type.

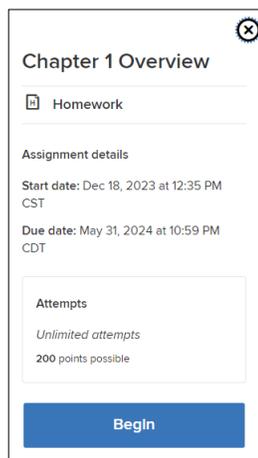

To view these assignment details, **click on the arrow** at the end of the assignment line.

Review Assignment Details

It is important to carefully review the assignment details before starting the assignment. Some assignments, for example, only allow a limited number of attempts or have a time limit, so be careful before jumping in!

When you are truly ready to start the assignment, click on **Begin**.

Resources on Assignments

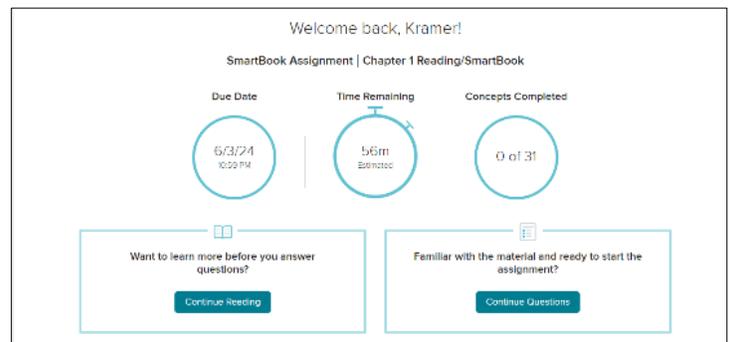

If your instructor allows the use of resources for assignment completion, they will be located on the left side of the page and under the question. The references icon provides information about the question type.

Your assignment may be timed, in which case the clock will still run even if you choose to Save and Exit the assignment.

If it is not timed, you may click Save and Exit at any time to save your work and return to it later. When you have completed the assignment, click the Submit button. Once submitted, click the Exit button, and return to the main menu.

SmartBook Assignments

In addition to other assignments, Connect offers a unique assignment called SmartBook. SmartBook provides personalized learning to you as an individual, continually adapting to pinpoint where you need help to ensure that you master the course content.

ReadAnywhere[®] App

SmartBook takes the guesswork out of what to study and helps you better prepare for class. With the ReadAnywhere mobile app, you can now read and complete SmartBook assignments both online and off-line.
