

Reports – Assignment Results, Student Performance, and At-Risk Reports (Classic Experience)

Video Walkthrough: [CLICK TO VIEW](#)

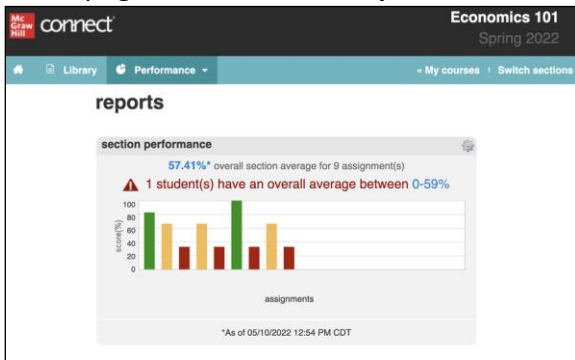

Section Performance

Once the semester is underway, and students are starting to submit assignments, you can begin viewing your course data using Connect Reports. Navigate to your course home page. On the right side and about halfway down the page is quick access to your Section Performance overview.

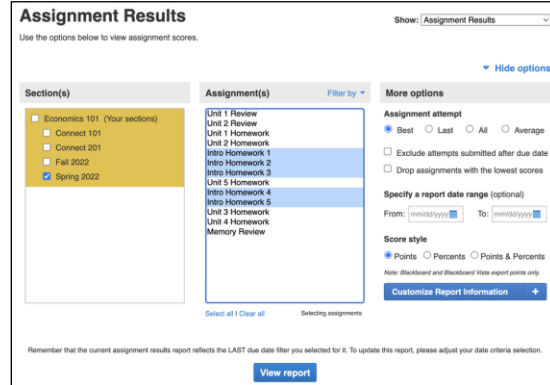

Report Types

To view all report types, click on the **Performance** tab, which is located at the top of your course home page. Next, click on **Reports**.

Assignment Results Report

This report shows your entire class performance across assignments. Begin by selecting the assignments you would like to view. You may adjust which attempts are displayed, exclude attempts submitted after the due date, and select your score style display preference. After adjusting settings, click **View Report**.

Student Performance Report

This report helps you search for a specific student and focus on that student's progress across assignments. View both submitted AND in-progress assignments by individual students; this allows you to provide guidance or feedback during or after an assignment. Export your results using the **Export to Excel** button at the top of the report.
