SIMnet Blackboard Ultra Course View Deep Integration – Instructor Assignment Deployment

1. Login to Blackboard Ultra

2. Click Courses on the left navigation

3. Click into your course. **Please note that the course, module, and resource names in this document are for illustrative purposes only. Your own course will be different.**
4. Click the + sign under Course Content where you want the assignment to appear and select Content Market

5. Click on the SIMnet link under Used in this course

6. The left-hand panel is the list of assignments in your SIMnet class. Click and drag the assignments on the left panel into the root on the right-hand panel. You can drag as many assignments as you want over to the right-hand panel.
7. When you are ready to deploy the assignments that you have dragged over to the right-hand panel, click the green Finish Deploy to Blackboard button.

8. Click the Confirm button

9. Verify the assignments and click Submit
10. The assignments that were deploy should show up under Course Content. Click on the arrows on the right in the assignment to rearrange the order as needed. A gradebook column is automatically created for each assignment and the student grades will automatically on an interval set by the Blackboard administrator.

11. By default Blackboard behavior, the assignments are deployed as Hidden from students. To make them visible, you can change them individually or in bulk. To do it in bulk, click Batch Edit.
12. Click the box next to Item to select all the assignments or select them individually.

13. In the lower right corner, select **Edit visibility** under the Edit selection options.

14. Select **Visible to students** and click **Save Visibility**.

15. Click the X in the upper left corner to return to the Blackboard course home.
