

Name _____ Date _____

Total Solar Eclipses

1990–PRESENT RESPONSE PAGE

Intermediate

1. What patterns do you notice in the data listed in the timeline or table?

2. Why do you think there is not a total solar eclipse every year?

3. Using the total solar eclipse data, create two word problems for a classmate to solve.

4. Choose one date on the timeline. Research the solar eclipse that occurred that day. Using the blank world map below, draw the path of the eclipse.
