

Rules for Rockin' Peer Reviews!

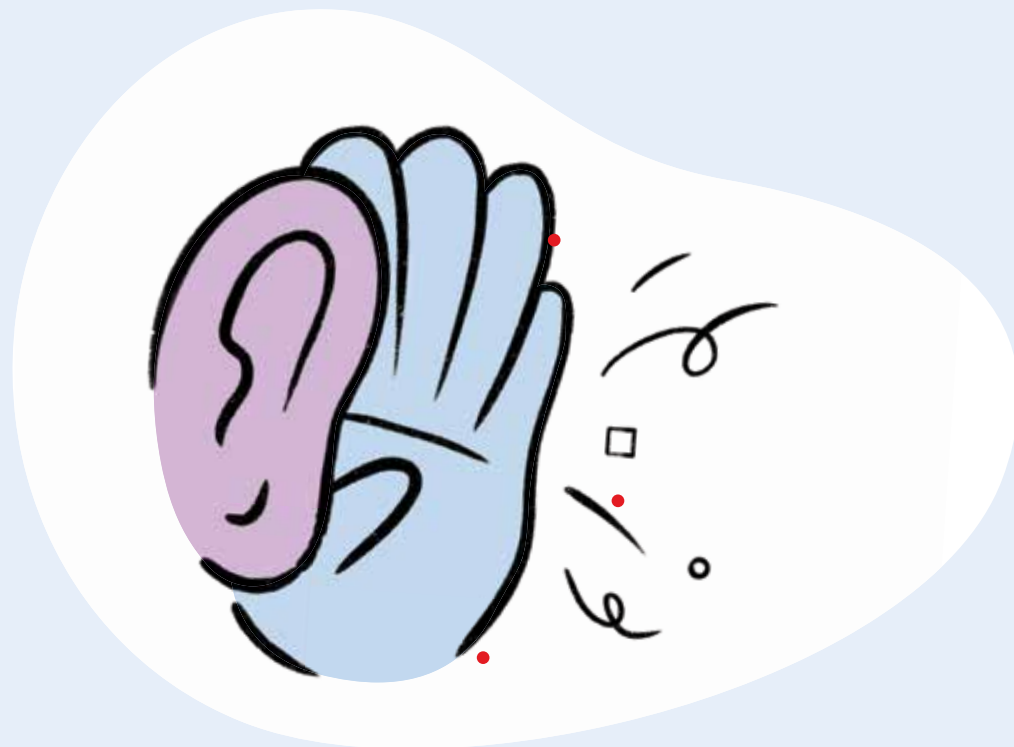

Be Kind

Your peer worked hard on their writing. Be kind when you give feedback!

Be Helpful

While it's important to be kind, it's also important to give feedback that helps your peer improve.

Listen and Learn

When receiving feedback, actively listen to your peer's advice and keep an open mind.

Empathize

Always put yourself in your peer's shoes before you choose words to give feedback or respond to feedback.

Grow

Writing is never perfect, and we all have room to grow as writers and thinkers.
